and Urban Development**

**OMB Approval No.  
2577-0269  
(exp. 9/30/2021)**

The public reporting burden for this collection of information for the Choice Neighborhoods Program is estimated to average ten minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information and preparing the application package for submission to HUD.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden, to the Reports Management Officer, Paperwork Reduction Project, to the Office of Information Technology, US. Department of Housing and Urban Development, Washington, DC 20410-3600. When providing comments, please refer to OMB Approval No. 2577-0269. HUD may not conduct and sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

The information submitted in response to the Notice of Funding Availability for the Choice Neighborhoods Program is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Public Law 101-235, approved December 15, 1989, 42 U.S.C. 3545).

## **Exhibit A. Executive Summary**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual narrative exhibit file: ExhAExecSummary.pdf*

**Exhibit A Executive Summary.** The first significant seeds of revitalization were planted in the Laney Walker-Harrisburg Choice Neighborhood in 2008 when the Augusta Commission passed legislation establishing local bond financing to support the Laney Walker/Bethlehem Revitalization Initiative. Designed to reverse decades of blight and disinvestment and regenerate nearly 1,100 acres of Augusta's urban center, the funds have been used for building new homes and renovate existing homes, planning, land banking and property acquisition and commercial and retail development. This large-scale development has been the beneficiary of many awards including the HUD Secretary Opportunity & Empowerment Award in 2013.

**Defining Characteristics.** The Laney Walker-Harrisburg Choice Neighborhood falls within multiple National Register Historic Districts that form the distinct character of Old Augusta. Developed prior to World War II, the community comprises a mix of traditional neighborhoods with varying architectural styles that falls within the Central Business District and runs along the Savannah River. It features all of the enviable characteristics of urban living—a wide variety of housing types, access to public transit, sidewalks and street trees, interspersed with small businesses and civic and institutional anchors connected by the original street grid pattern. Despite these building blocks, the neighborhood continues to battle decades of disinvestment, poverty, crime, and unemployment with large concentrations of public housing (including Allen Homes—Target Housing) that are amongst the poorest in Georgia.

**Challenges.** The target neighborhood suffers from significant blight and vacant parcels, making it difficult to attract private investment to support new commercial, residential, governmental, and other uses. Much of the area lost population through the closing of mills and suburban migration, leading in turn to high rates of unemployment, poverty, and crime. At the time of a blight study in 2012, 33% of housing in the Laney Walker neighborhood was in poor to dilapidated condition with over 20% of parcels vacant; and 70% of housing in Bethlehem was in poor to dilapidated with over 30% parcels vacant. Harrisburg is similarly associated with 22% of homes vacant/abandoned and stifling high crime.

Allen Homes' greatest challenge entails environmental injustice stemming from the site's previous use as a chemical manufacturing facility for over 80 years, which affects the health, safety and well-being of residents. Additionally, the site is isolated by two active railroads, an 8-track railyard, industrial manufacturing facilities, high-tension power lines, and 6-lane highway.

**Image of Neighborhood:** The Choice Neighborhood reflects Old Augusta's rich history as an urban riverfront community, interspersed with many historic structures, institutional anchors, theaters and museums, and is bisected by the Augusta Canal National Historic Area. The historic grid offers a pedestrian-oriented, walkable and sustainable framework for revitalization yet much of this is overshadowed by a high rate of blight and vacancies that continue to hinder reinvestment.

**Neighborhood Assets.** The Laney Walker/Harrisburg neighborhood is rich with assets. ***Developmental assets*** run the gamut from the Augusta University Health Science Campus including the Medical College of Georgia, University Hospital and Veterans Administration Hospital, Paine College (HBCU), and John Milledge Elementary School. Because the neighborhood encompasses much of the Central Business District, there are many diverse ***commercial assets*** including the health care industry, public sector employers (City-County government, Board of Education, etc.) and local large industrial companies. ***Recreational assets*** also vary widely and include the Augusta Canal Heritage Area, Augusta Riverwalk, Dyess Park, the Kroc Center, and the Boys and Girls Club of the Central Savannah River Area. ***Physical assets*** include many historic homes and structures, King and Sibley Mills, the James Brown Arena, Lucy Craft Laney Museum, Augusta Museum of History, Imperial Theatre, and Miller Theater, all set amid a walkable street grid. ***Social assets*** include organizations such as the Greater Augusta Arts Council that fosters community-driven public art projects, Antioch Ministries Inc. Development Corporation that helps build healthy, socio-economically diverse neighborhoods in distressed communities, multiple faith-based institutions, and Richmond County Sheriff's Office.

**Objective of Choice Grant.** The Augusta Housing Authority (AHA) respectfully requests a \$450,000 Choice Planning Grant to bring together a passionate network of local organizations and committed

partners to develop an implementable strategy and cohesive vision to reintegrate the residents of Allen Homes into the community and to build on the innovative efforts turning the tide in the traditionally African-American communities of historic Laney Walker, Bethlehem, Harrisburg, and downtown Augusta. Through the lens of CNI's focus on housing, people, and neighborhood, the planning team will guide a holistic approach to transformation. To right the wrong of environmental injustice towards Allen Homes residents, a focus of the Choice housing plan will be to explore equitable replacement sites within the neighborhood. This grant is fully leveraged, and the planning team and residents are ready.

<b>Neighborhood demographics</b>	<b>Neighborhood (2020 Estimate)</b>	<b>City of Augusta (2018)</b>
Total Population / No. of Households	9,426 / 3,955	196,807 / 70,390
Average Household Size	2.00	2.66
% Owner-Occupied / % Renter-Occupied	20.2% / 79.8%	52.7% / 47.3%

Median Household Income	\$18,798	\$ 40,545
White alone / Black alone / Hispanic	26.3% / 67.8% / 2.6%	39.0% / 58.6% / 4.8%

Source: ESRI, ACS estimates

**Overview of Process and Key Partners.** Augusta Housing Authority (AHA) (Lead Applicant) and the City of Augusta (Co-Applicant) will direct the planning effort with a committed team of partners, residents, and stakeholders to create an innovative yet achievable plan for transformation. Serving as the Planning Partner is the Laney Walker-Harrisburg Community Partnership (LWHCP), a consortium of 3 highly experienced local organizations—the Medical College of Georgia Foundation (MCGF), the Community Foundation for the Central Savannah River Area (CFCRSA), and the Boys and Girls Club of the Central Savannah River Area (BGC). AHA, its Planning Partner and the City of Augusta will be joined by Allen Homes residents on the Steering Committee to offer leadership throughout the planning process. These organizations will lead the Housing, People, Neighborhood Task Forces, to foster

constructive dialogue among local organizations, businesses, community anchors and residents. Together, they will shape a cohesive vision that reflects the hopes and aspirations for the future of the neighborhood and that builds upon the hard work completed to date. Residents of Allen Homes and the larger community will be invited to serve as members on all of the Task Forces and be invited to attend all community workshops and special events. Resident ambassadors will be enlisted to share information with their peers and encourage participation, and to ensure transparency.

**Preliminary Market Potential.** A 2017 Housing Market Analysis (HMA) for the Augusta-Richmond County MSA, highlights the education and health services sector as the second-largest private economic sector in the HMA and exhibiting the most growth, making it a major driver of the market. This sector added 700 jobs annually from 2013 to 2016, 1,100 jobs the following year and is anticipated to continue to expand over the next several years, particularly with the recent expansion of Augusta University Health, which anchors the Choice neighborhood. The government is the largest sector, stabilizing the market. In the 12 months ending May 2017, government jobs expanded by 400. Since 2013, demand for homes has increased faster than available supply. Fort Gordon (US Army base 10 miles from Downtown Augusta) has a large effect on the rental market, with military households estimated to comprise approximately 15 percent of all renter households in the region. Most apartments within 10 miles of Fort Gordon and are affected by expansions or contractions of the base. Fort Gordon is in the process of expanding staffing of 1,200 employees, affecting the region's rental market positively.

**Neighborhood boundary.** The neighborhood boundary was established to harness the momentum of recent investments in the target neighborhood and anchor institutions within the central business district/downtown. The eastern boundary follows interstate 78 to the riverfront, a barrier that cuts off Allen Homes and the area from Old Town. To the north the Savannah River forms a natural boundary. The western boundary follows Milledge Road which delineates the Sand Hills neighborhood (world famous Augusta National Golf Club). The southern boundary follows Wrightsboro Road – an east west corridor in the city.

**Exhibit B. Requirements**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual narrative exhibit file: ExhBRequirements.pdf*

**B1. Outstanding Civil Rights Matters.** Neither the Applicant nor Co-Applicant are involved in any outstanding civil rights matters.

**B2. Timely Submission of Applications.** This application is submitted within the deadline stated in the NOFA and is not considered late.

**B3. Choice Neighborhoods Application Certifications.** A completed HUD-53156 form is provided in Attachment 25. It is signed by the mayor of the City of Augusta and the Executive Director of the Augusta Housing Authority and chairperson of AHA board of Commissioners. Augusta Housing Authority attests to meeting the Match Requirements in the grant.

**B4. Number of Applications and Public and/or Assisted Housing Projects.** (a) Laney Walker-Harrisburg Community Partnership (LWHCP) as the Planning Partner is not participating in more than two applications under this NOFA. (b) This is the only application from the City of Augusta.

**B5. Relation to Prior HOPE VI Revitalization Grants.** Allen Homes, as the target housing site, was not a recipient of prior HOPE VI grants.

**B6. Relation to American Recovery and Reinvestment Act (ARRA) Capital Fund Recovery Competition (CFRC) Grants.** Allen Homes, as the target housing site, was not a recipient of prior ARRA CFRC grants.

**B7. Relation to Prior Choice Neighborhoods Grants.** Allen Homes, as the target housing site, was not a recipient of prior Choice Neighborhoods grants.

**B8. Relation to Rental Assistance Demonstration (RAD) Applicants.** Allen Homes has not received a RAD Conversion Commitment (RCC) at the time of the application deadline of this NOFA.

**B9. Resident Involvement.** Written notice was provided to all households of Allen Homes on August 28, 2020, apprising residents of the CNI planning process, general timeline, contact information, and welcoming questions and comments. A copy of the notice is included in Attachment 6.

## **Exhibit C. Capacity**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual narrative exhibit file: ExhCCapacity.pdf*

**C.1. Capacity to Lead the Planning Process.** Augusta Housing Authority (AHA) (Lead Applicant) and the City of Augusta (City) (Co-Applicant) are well-positioned to lead the Laney Walker-Harrisburg neighborhood through an inclusive, community-driven planning process. Laney Walker-Harrisburg Community Partnership (LWHCP) will serve as the Planning Partner and assist AHA and the City in directing a thorough planning effort that brings together residents of Allen Homes and the surrounding community with city partners and local stakeholders committed to meaningful and lasting improvement.

*Experience with Comprehensive Neighborhood Planning:* AHA's relevant expertise is visible in projects such as the Legacy of Walton Oaks, Walton Green and Powell Point (Twiggs Circle Redevelopment). Walton Oaks entailed a two-year planning process that envisioned a 26-acre mixed-use, mixed-income community on the site of an obsolete public housing site—Underwood Homes—along the Savannah river. In support of the City's Urban Area Master Plan, Walton Oaks led to an approximate \$42 million investment into the development of 318 units of new housing including 137 senior units, 16% of units public housing and the remaining a mix of low-income tax credit, project-based voucher and market-rate units. During the planning phase, AHA held multiple charettes with the. Resident needs assessments identified household requirements, preferences, and relocation concerns. In response, the design features: an oversized gazebo, billiard room, lending library, fitness center, patios, open floor plans, picnic area with tables and grills, community laundry facilities, EarthCraft Certification, abundant greenspace, after-school enrichment program, covered playground, energy-efficient appliances, sport court, on-site sheltered bus stop, and off-street parking.

Formerly known as Cherry Tree Crossing, Walton Green is a four-phase mixed-income housing community on a 30-acre site along the 15th Street Corridor. It is part of the larger Laney Walker/Bethlehem Revitalization Initiative (described below), involving multiple public and private partners, which won the 2013 HUD Secretary's Opportunity and Empowerment Award. AHA met with residents multiple times to gather feedback before the submission of the demolition/disposition application and later during the redevelopment process. In response, the design features: efficient

appliances, Legacy Center (community gathering space), outside courtyard gathering space, high ceilings, bright open floor plans, spacious bathrooms, controlled/gated access, fitness center, laundry facilities, and EarthCraft Certification. With an investment of approximately \$27 million in the first two phases, the remaining phases are planned to be complete over the next few years. Both the Walton Oak and the Walton Green properties recently underwent RAD conversion for all public housing units.

The City of Augusta's (Co-Applicant) experience and leadership is exemplified by the Laney Walker/Bethlehem Revitalization Initiative, a pioneering effort to reverse decades of blight and disinvestment by regenerating nearly 1,100 acres in two historic African-American neighborhoods in Augusta's urban center. At the time the initiative launched, 33% of housing in Laney Walker was in poor to dilapidated condition with over 20% of parcels vacant, and 70% of housing in Bethlehem was in poor to dilapidated condition with over 30% of parcels vacant. A 16-month neighborhood planning process resulted in a long-term (50 years) vision for revitalization anticipated to provide housing for approximately 10,000 residents with a total investment of \$2.8 billion, create 38,000 new jobs, and result in total investment into the local economy of \$4.5 billion over the next five decades.

The project draws upon local bond financing (established in 2008) supplemented with HUD NSP, HOME and CDBG funds as seed capital to catalyze mixed-income/mixed-tenure housing and mixed-use, sustainable development with a goal of 5 to 1 leverage of private investment that parallels many of HUD's CNI goals. The project also addresses a number of objectives outlined in the Augusta-Richmond County Comprehensive Plan (2008) and more recent Comprehensive Plan, Envision Augusta (2018), including affordable housing, access to jobs and services, open space, blight abatement, infill development, and preservation of local heritage. Valuable lessons learned include meeting physical challenges (land acquisition, zoning, nuisance buildings, infrastructure); financial constraints (lender financing for mortgages, construction loans, appraisals, etc.); and managing community awareness, engagement, and acceptance of change (revitalization vs. gentrification).

*Results of the Neighborhood Planning Process:* Both AHA and the City have seen positive quantifiable results from their neighborhood planning processes. The four-phased, \$42M Legacy at Walton Oaks was completed opened in November 2015; and the first of four phases of Walton Green was completed in 2017 and generated \$27million in housing improvements. Both properties more recently underwent RAD conversion in 2020, resulting in 398 units of housing converted from public housing to the section 8 platform. Phase II of Walton Green is nearing completion of construction.

The very deliberate planning process leading to the Laney Walker/Bethlehem Revitalization Initiative resulted in a master plan and site plans for seven priority development areas; market studies assessing how best to attract a broad mix of residential and commercial users; layered financing; a policy framework; development and homebuyer incentives; collaborative community programs; a pattern book and green building guide to ensure that historic designs and sustainability principles inform new construction; and selection of private development partners to assist the city's housing department with design, engineering, construction, marketing, and program development.

Working closely with the Augusta Land Bank Authority, the City has ongoing efforts to acquire and reuse vacant land, especially for the use of affordable housing for low- and moderate-income households. Of the 357 properties acquired by the Land Bank, the majority have and continue to be used for housing within the Laney Walker neighborhood where housing stock is in the poorest of conditions. To date, this revitalization effort has led to over \$2M in blighted property acquisition and the demolition of over 50 abandoned homes. Led by the Department of Housing and Community Development, the City has since constructed over 70 new units within the Laney Walker-Harrisburg neighborhood – units that are a blend both of market rate and affordable. Additionally, and in partnership with Antioch Missionary Baptist Church, the City has constructed over 35 new homes in some of the most distressed parts of the community. These homes each include \$25,000 in equity to low and moderate-income families to assist with affordability.

The efforts of the AHA and City have since attracted significant new private investment to the area. Beginning in 2016 and completed in 2019, the new \$26M Beacon Station development, led by the City's Housing and Community Development Department, includes 221 mixed rate units and retail on over 7.5 acres in the Laney Walker-Harrisburg community. Additionally, the City, in partnership with a local developer, has broken ground on a new \$15M mixed-use multi-family and retail development.

**C.2. Resident and Community Engagement.** The City (co-applicant) uses community engagement extensively in its planning and revitalization efforts. In 2018 as a part of its Comprehensive Plan, the City arranged a series of public meetings held largely within the Laney Walker-Harrisburg community. These sessions featured a “Planners of the Day” Gallery Hop where citizens could discuss needs and opportunities at a series of stations. A second round of public meetings presented the compiled needs and opportunities for additional comment. Results were shared publicly via social media and on the *Envision Augusta* website. As a follow up, the City engaged citizens in Augusta's Annual Action Plan development process. Public Notice was posted in each of the city's local publications (Augusta Chronicle and Metro Courier) and on the city's website. A public meeting obtained input on housing and community development needs, provided an overview of the CDBG, ESG, and HOME programs, and solicited project proposals for the FY2019 Action Plan. Residents attending the meetings had the opportunity to receive additional information and comment on the content of the Plan, including activities to be proposed, the amount of assistance to be received, and plans to minimize displacement.

The *Reclaiming Historic Harrisburg* project illustrates the City's ability to lead an effective resident and community engagement process to realize a cohesive vision. The City worked closely with the Georgia Conservancy and Georgia Tech's College of Architecture along with dozens of municipal partners and community residents to build on previous planning efforts and harness the potential of the historic mill community. *Visioning Workshops:* The process centered around three large-scale community workshops. The first began with a presentation of initial findings and then stakeholders were divided into small work groups to discuss strengths, challenges, and opportunities. These findings

directly informed draft recommendations that were presented to the community for discussion and feedback during the second workshop. Final recommendations were presented during the third workshop to ensure a transparent and inclusive process. Community input led directly to the plan’s four areas of focus: Neighborhood Identity and Revitalization, Connectivity, Public Safety and Crime, and Inadequately Designed Commercial Corridors.

Following the *Blueprints* effort, the City, Georgia Conservancy, and community partners held a series of *Lifelong Communities Design* charrettes to create an actionable development plan for Harrisburg. Based on resident input, the City agreed to pursue a small grocery store to address the food desert issue, to provide a farmer’s market and raised vegetable beds, to increase police visibility in the area, and to begin making improvements for pedestrian traffic—targeting lighting and walkability. Residents also requested funding for a park or greenspace in the area, the development of a community garden, the addition of a Boys and Girls Club location closer to the neighborhood, and potentially the ability to develop new housing for seniors and families. Many of these aspirations have since been incorporated into the Medical College of Georgia Foundation and Augusta University’s master development plan at the center of the Laney Walker-Harrisburg community.

The City’s work with the Augusta Canal Authority also demonstrates its ability to partner with agencies in revitalizing a distressed community. As a part of the Authority’s *Third Level Canal* project, the City and Canal Authority hosted many of the Laney Walker community’s residents in a series of interactive public sessions to ask them how we could best improve the areas surrounding the canal. These sessions included a Community Preference Survey and survey questionnaire to help the Authority determine preferences for various styles of development. The resulting vision was that of a vibrant community that celebrates the values of historic preservation, quality housing, community-building institutions, accessible services, economic opportunities, and ultimately, an enhanced quality of life. The resulting effort—led by the City’s Department of Housing and Community Development—saw the complete renovation of Dyess Park, the development of new housing units adjacent to the park, and the

relocation of the Mother Trinity Christian Methodist Episcopal Church. Safe from demolition, an effort is underway to transform the local treasure into a community center.

**C.3. Capacity of a Planning Partner** AHA and the City have partnered with the Laney Walker-Harrisburg Community Partnership (LWHCP), which will serve as Planning Partner (PP) for the Laney Walker-Harrisburg Choice Neighborhood Plan. This partnership consists of the Medical College of Georgia Foundation (MCGF), the Community Foundation for the Central Savannah River Area (CFCRSA), and the Boys and Girls Club of the Central Savannah River Area (BGC). These partners have individually and collectively built capacity within the greater community for the development and redevelopment of capital and human-capital infrastructure meant to grow and sustain residents in the most thoughtful and equitable ways possible. The Partnership maintains active relationships with each of the communities and stakeholders involved in the Laney Walker-Harrisburg Choice Neighborhood Plan. The LWHCP has engaged WRT, a nationally recognized planning and design firm that specializes in transforming distressed public housing and neighborhoods into successful, mixed-income, mixed-use neighborhoods of choice. WRT has the ability to draw upon its broad experience and many lessons learned leading the CNI planning process for past grantees such as the City of Newport News, Camden, Philadelphia, and Trenton, and thrives in developing place-based strategies tailored to a community's distinct character, history, and set of challenges.

***Laney Walker-Harrisburg Community Partnership (LWHCP)*** In response to our community's desire to see long-promised transformative community investment, the MCGF, CFCRSA and BGC—each of which is headquartered within the Laney Walker-Harrisburg neighborhood—joined together to catalyze such an investment by establishing the LWHCP. To demonstrate this commitment, each has agreed to serve as significant leverage partners in the planning process and to leverage their collective relationships and influence to serve this effort.

***Medical College of Georgia Foundation (MCGF):*** The MCGF, whose mission is to support the clinical and educational purpose of the Medical College of Georgia and Augusta University, has a long

history of supporting development projects on behalf of its parent institution, Augusta University, and for the university-related academic medical center, Augusta University Health System. A significant part of its service to the institution stems from the foundation's broad real estate portfolio, and its ability to secure financing unavailable to the State. The MCGF most recently served as funding partner for the construction of two research and academic buildings—the Georgia Cancer Center (\$2M committed), and the J. Harold Harrison Education Commons Building (\$11M committed).

The MCGF is currently leading the redevelopment effort of approximately 55 acres adjacent to the Augusta University's Health Sciences Campus, at the center of the Laney Walker-Harrisburg community. The development will deliver a mix of commercial retail, residential and university assets, and is estimated at over \$150M. As a part of the first phase of development, the MCGF will construct two brand new community assets that first brought the MCGF together with CFCSRA and BGC. These assets—a new Community Center and Boys & Girls Club—total roughly \$12M for these vital neighborhood organizations at little or no cost to them.

Additionally, the MCGF has partnered with the City of Augusta, the Augusta Land Bank Authority and the Economic Development Authority to deliver as a part of its retail development, a new, neighborhood-scale grocery store through a collaborative effort with the Laney Walker-Harrisburg community and its residents. The vision is a partnership between this store and the Community Center – and specifically with Augusta Locally Grown – that delivers high quality, fresh, and healthy foods to the Laney Walker/Harrisburg neighborhood. Working with the CFCSRA, the MCGF will assist the AHA and City in securing properties needed for the expansion of housing throughout the CNI process.

*Community Foundation of the Central Savannah River Area (CFCSRA):* The CFCSRA has been embedded in the community for over 25 years and uses its resources, both financial and human, to fulfill its mission to engage, inform and inspire donors and nonprofits to build a stronger and more vibrant community. As of the end of 2019, CFCSRA had \$106 million in total assets. As one of the largest grantmakers in the region, CFCSRA raised \$6.3 million and distributed \$6.7 million in grants in 2019.

The organization awards hundreds of grants to more than 50 organizations a year through its Community Grants Fund, which are evaluated by community members. CFCsra's four focus areas are Education/Youth Empowerment, Health/Environment, People in Need, and Arts/Culture/History. In addition, CFCsra conducts free training seminars, networking events, community meetings, and funds continuing education for staff and trustees of nonprofits working in the 6-county region.

In 2017, the CFCsra engaged the Georgia Center for Nonprofits to conduct asset mapping and a trend analysis of the 30901, 30904 and 30906 zip codes of Richmond County, which includes the Laney Walker-Harrisburg neighborhoods. Building on a United Way study of community needs in these highly underserved and often marginalized areas of the City's urban core, the CFCsra sought to understand the capacity and capability of the community nonprofits serving this area to meet these significant challenges. The resulting information has guided the Community Foundation's grantmaking, convening and leadership work in multiple ways. One of the most important aspects of that work is CFCsra's decision to develop a program using current best practices in grantmaking to address tough, often intractable, community challenges, applying place-based and multi-generational strategies that addresses needs throughout a person's life from birth to adult.

Through a partnership with a statewide effort, Literacy for All, our team focused this new program on literacy and the many barriers to productive learning that face families living in poverty. CFCsra's Literacy Initiative's pilot program awarded grants in July of 2019 and will continue annual funding in 2020 and 2021. These grants were awarded to organizations willing to focus their work on the Harrisburg neighborhood as defined by the children who attend Lamar Milledge Elementary and their families. The hope is that by intentional funding a cohort of educators and service providers that provide programming and support across the entire life cycle, we can have measurable improvements to literacy and a positive impact on the entire neighborhood. If successful, CFCsra would look to duplicate this model in additional neighborhoods/schools.

The President and CEO as well as the Director of Grants and Community Engagement of the CFCSRA have experience with convening and facilitation of community conversations as well as involvement at the leadership level with many local organizations such as Augusta Tomorrow, Augusta Economic Development Authority, Westobou Arts Festival, Education Resource Fund of the Augusta Richmond County Chamber of Commerce, and the Task Force on 1970 Race Riots (Laney Walker).

*Boys & Girls Club of the Central Savannah River Area (BGC):* The BCG has been providing youth development opportunities in the Laney Walker-Harrisburg community for the past 69 years, through impactful after school and summer programming. It serves youth ages 6-18 through its mission “to inspire and enable all young people, especially those who need us most, to reach their full potential as productive, caring, and responsible citizens” – a mission that is realized when youth achieve 4 outcomes: Academic Success, Healthy Lifestyles, Good Character and Citizenship, and Career Development and Job Readiness. BGC has a total of 9 club locations in the Central Savannah River Area, 3 of which serve the Laney Walker/Harrisburg community and surrounding neighborhoods.

The BGC has developed strategic partnerships with other community-based organizations to strengthen its impact on families and the community. Written partnership agreements exist between BGC and the Richmond County School System, and other city/county agencies such as the Augusta Housing Authority, Department of Family and Children Services, Department of Public Health, and the Richmond County Parks & Recreation. City leaders, law enforcement leaders, and local corporate executive leaders are well represented on BGC’s Board of Directors. The BGC’s CEO also serves on the Executive Committee of the board of Leadership Augusta, connecting the organization to community leaders in a substantive way. Leadership Augusta’s mission is to inform and inspire existing and emerging leaders of the greater Augusta area to build a stronger community.

The BGC wrote (in-house) and was recently awarded five (5) 21<sup>st</sup> Century Learning Centers grants totaling \$1.7M from the Georgia Department of Education. The application process includes coalescing community stakeholders of youth development and forming Advisory Councils that lend

expertise and support to the goals and objectives of the grant. Advisory Councils consist of public-school leaders and teachers, private school leaders, other community-based organizations, parents, students, and faith-based leaders to get their input and build accountability around program execution, data management, and evaluation. Data collected from public reports, school performance and surveys of teachers, students, and parents guided a comprehensive identification of needs, the development of the program model, and served as the foundation for measuring and evaluating success. Formal Memorandums of Understanding (MOUs) were signed between BGC and over 30 community partners.

BGC has constructed two (2) facilities in the last three years as part of an expansion effort totaling \$10M. The organization successfully managed the capital campaign, raising 100% of the funds from a combination of New Markets Tax Credits, local and state foundations, city SPLOST allocations, corporations, and individuals. Bridge financing was secured for outstanding pledges during the project period and subsequently satisfied. During the same timeframe, the BGC completed a \$1M renovation to another facility, funded by a Community Development Block Grant. The increase in budget size over the last 5 years and the early success in silently launching an Endowment Campaign in 2020 are demonstrative of BGC's capacity to raise funds. The BGC operates on a \$5MM annual operating budget, of which 97% is secured by local fundraising efforts annually, led by the organization's CEO and executive team.

**Exhibit D. Need - Structural and Design Deficiencies**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual narrative exhibit file: ExhDNeed.pdf*

**D.1.(a) Immediate Project Capital Needs.** Allen Homes, constructed in 1961, has immediate capital needs of \$23M (81% of TDC). The property features systemic structural and design deficiencies. Additionally, the property presents an environmental justice travesty based upon previous operation as a chemical manufacturing facility for 80 years. The chemical facility was demolished, and the land repurposed for public housing. Exxon Mobil conducted remediation efforts in 2003, however, based upon provided documentation, environmental risks remain to the residents of the property. Additionally, the property is hedged by two (2) active railroads, an 8-track railyard, industrial manufacturing facilities, high-tension power lines, and a 6-lane highway.

**D.1.(b) Structural Deficiencies.** Foundations and Structural Walls: The original brick wall assemblies and concrete foundations demonstrate significant evidence of both existing deterioration and past repairs to structural cracks and displaced mortar beds. Areas of former wooden-batten siding on second floor assemblies were covered in exterior insulation finishing system (EIFS) circa-2005; which is a demonstrated problematic building material. Window assemblies are noted to be failing at an advanced rate and have insufficient noise attenuation and energy properties. Cooling and Heating System including Domestic Hot Water: The buildings feature a hydronic system, which is past its published EUL, has significant heating limitations, and replacement concerns. Bath ventilation is insufficient, creating environmental health issues (mold and mildew). Site Infrastructure and Utilities: Lateral site sewer piping and cement-transit water supply piping are original and in poor condition. Water main leaks are a constant concern and the source of unnecessary utility expense. Past Exxon remedial efforts compromised the condition of the buried water piping. Parking, walks, and hardscape are all in poor physical condition. Environmental Site Concerns: The site features multiple environmental conditions that affect the health, safety and wellbeing of residents. Prior to multifamily use, the site was an industrial chemical manufacturing facility for more than 80 years. The industrial neighbors of the property have multiple active hazardous waste releases, which are upgradient of the site. In addition, there are 10 buildings on-site that are situated within the fall zone distance of the western adjacent high-

tension power line easement; 6 buildings are subjected to excessive noise from the adjacency to a 6-lane highway; and railroads/crossings at two property boundaries present noise and safety concerns.

**D.1.(c) Design Deficiencies.** Site Design Deficiencies: The circa-1961 property demonstrates fundamental site design flaws including unit/use density, lack of community amenities, general site in-accessibility, inadequate unit visitability, and lack of property security and defensible space. The buildings include design deficiencies and functional obsolescence relative to energy efficiency, health of homes, inadequate room size, and inadequate unit configuration. The following are observed design deficiency concerns: (i) The buildings feature lack of definition between front and rear entrances, in essence barrack-style structures. In addition, many of the patios and porches serving the entrances have no territory of space, missing guardrails, and feature large fall and trip hazards with some porches having unsecured drops of over 18". (ii) The site lacks adequate handicap accessibility, including sufficient UFAS compliant units, ADA parking spaces, ramps, curb-cuts, and accessible dumpster locations. Site visitability is hindered by incomplete sidewalk installations post completion of soil remediation by Exxon Mobil. (iii) The lack of congruity of roads, a haphazard block design, fragmented roads/parking areas, and small driveways make the property difficult for emergency vehicles and first responders. The site lacks adequate emergency vehicle access. (iv) Site security is a concern with poor or lack of perimeter fencing, un-restricted access to the railroads by tenants, and insufficient perimeter site lighting – creating safety hazards for residents and visitors alike.

**D.2.(a) Neighborhood Poverty.** The poverty rate in the target neighborhood is 47.11.

**D.2.(b) Long-Term Vacancy.** The long-term vacancy rate in the target neighborhood is 15.60.

**D.2.(c) Part 1 Violent Crime Rate.** The 3-year average Part I Violent Crime rate of the target neighborhood in comparison to the City is 2.557869.

**D.3. Need for Affordable Housing in the Community.** The shortage ratio of units affordable to VLI renter households in Richmond County is 1.78.

**Exhibit E. Soundness of Approach**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual narrative exhibit file: ExhESoundnessofApproach.pdf*

**E1.** The most important aspect of developing a transformative Choice Neighborhoods Plan is involving residents of the target housing site in the planning process, hearing their insight into the challenges and obstacles they face each day, and working together to identify priorities and develop implementable strategies. AHA, the City, the Planning Partner, and the planning team will tailor the engagement strategy to involve residents from the outset and consistently throughout the process. The strategy will draw upon multiple tools, from no-tech to virtual, with the flexibility to adapt to conditions such as COVID-19 and engage harder-to-reach residents through informative, inclusive, and inviting activities that build skills, friendships, trust and community.

AHA will work with the Allen Homes Resident Council that will meet monthly during the Choice planning process and set aside time at each meeting to focus on Choice. The Council will play an important role as a conveyor of information to and from fellow residents. Resident Council members will participate in the Steering Committee and Task Forces, and serve as ambassadors for the project, sharing updates and encouraging fellow residents to take part in the planning process. Allen Homes residents will be invited to share their ideas, express concerns, and offer input to directly shape the Transformation Plan in many ways, including: 1) *Steering Committee* – A minimum of two residents of Allen Homes will be members of the committee; 2) *Task Forces and Working Groups* – At a minimum these will include Housing, People and Neighborhood Task Forces. All residents will be invited to join a task force and to attend all meetings to shape the vision, goals, and strategies for the Plan; 3) *Needs Assessment Survey* – A comprehensive survey will invite residents to share candid feedback about the challenges they face and to identify programs, services, and/or other changes that could help them thrive; 4) *Four Community Meetings* will bring residents of Allen Homes *and* the neighborhood together at key milestones during the process to provide feedback and refine the Plan’s priorities and strategies; 5) *Focus Groups* – At least three focus group discussions will dive more deeply into issues that emerge from the survey, community meetings, and Task Force discussions such as literacy or mental health, to develop substantive strategies for improvement; 6) *Youth Ambassadors* – Each Task Force will be

encouraged to include two young resident ambassadors to gather their unique insight and foster youth leadership. They could also be encouraged to set up a youth task force; 7) *Community Ambassadors* – Up to six Allen Homes and/or neighborhood residents will be invited and paid a stipend to share information about the plan and related events, advocate for plan recommendations, and champion the planning process; 8) *Special Events* – Smaller pop-up events will provide alternative ways to increase interest and build momentum for the project throughout the planning process. They will include synergistic events with committed partners – downtown events with Augusta Tomorrow; community get-togethers with Antioch Baptist; farmers market events with Augusta Locally Grown; health fairs with Augusta University Health System; and “walkshops” with Historic Augusta. **Resident Communications** – One of the challenges of engaging residents is understanding how best to share information with them. Understanding how residents tend to get their news and learn about area events will be critical to shaping an effective engagement plan and one of the first questions asked of the Resident Council and residents. A central hub will be established to collect and share all meeting announcements, minutes, photos, and related materials. This will be integrated into AHA’s website as a separate section. Information about the Choice effort will also be featured prominently in the monthly newsletter. Ambassadors will also regularly hand out flyers and spread the word to circulate information about the planning process. The use of social media such as Facebook, Instagram, and the NextDoor app will also be explored to share information about upcoming meetings, the planning process, and ways to get involved. AHA also has a text messaging system in place to broadcast information about upcoming meetings. **Resident Capacity Building** – To build capacity among residents of Allen Homes, AHA and the planning team will explore hosting a Planning 101 Workshop, a bus trip to see similar transformed neighborhoods, and a monthly series centered around asset-based development, leadership skills, working with local government, and good citizenship. Communities in Schools is a well-respected local partner that will lead this capacity-building component of the planning process.

**E2.** The Laney Walker-Harrisburg neighborhood has a number of anchor institutions that will play a critical part in the planning process as partners, sharing direct insight into area needs and opportunities. The planning process will take advantage of this unique opportunity to streamline the programs and hone the capabilities of these organizations on a unified vision and set of strategies to maximize their overall impact on the community.

In addition to the Steering Committee members and Task Force lead organizations identified in E7 Staffing Plan below, representatives of other community organizations, faith-based institutions, local businesses, and neighborhood residents will be invited to join the Steering Committee, and Housing, People, and Neighborhood Task Forces. The Steering Committee and Task Forces will meet monthly or bi-monthly throughout the planning process to identify and prioritize needs and opportunities, review and ground truth the findings of the needs assessment, establish overarching goals, develop potential strategies, and then identify partners and define metrics towards a sound plan for transformation.

To build community capacity, neighborhood residents and organizations will be invited to take part in the Focus Group meetings, which also provide important opportunities for local organizations and business owners to exchange experiences and ideas, and develop complementary strategies tailored to neighborhood needs. Community partners will also be invited to host events such as the Community or Task Force meetings, providing additional ways to highlight their services and facilities to the neighborhood. Partners will also be asked to participate in capacity-building activities for Allen Homes and neighborhood residents.

Clear and regular communication with the Laney Walker-Harrisburg neighborhood will be critical to the plan's success. AHA's planning team will take advantage of community events (festivals, workshop, health fairs, food / backpack giveaways) to connect with neighbors, promote the planning process and enable residents to participate and follow the plan's progress. Meeting times, locations, and formats will vary to make them as convenient as possible while allowing a wide range of voices to be heard. Up to six Allen Homes and/or neighborhood residents will be invited to serve as Ambassadors to

share information with their neighbors, friends, and peer groups. Meeting and event announcements and presentation materials will be listed on the project website, community calendar, radio broadcast, and/or social media. Email blasts and flyers will also be widely circulated.

**E3.** The needs assessment will be used to gather important data – both quantitative and qualitative – from Allen Homes residents to understand and evaluate the community’s needs, assets, and opportunities, and to set a baseline to measure progress. Planning team partners will work together to tailor questions to specific programs and services offered throughout the Laney Walker-Harrisburg neighborhood to evaluate their effectiveness, resident awareness and participation, and how they may or may not be reaching the intended audiences. Questions will aim to identify barriers such as cost, safety, transportation, and availability. The AHA planning team will be responsible for assembling and administering the Allen Homes resident survey with assistance from Paine College and with input from the Steering Committee. Topics will address employment, health, education, safety, housing, youth, mobility, access to technology and community aspirations. AHA and its planning partners have extensive experience to draw upon, having administered similar surveys in conjunction with Legacy of Walton Oaks, Walton Green and Powell Point. This experience offers valuable insight into the structure, format, wording and order of questions, to strategies that foster high participation that might include one-on-one survey sessions, events with childcare and activities, and special incentives.

The AHA planning team will launch the needs assessment during a family-friendly kick-off event with refreshments and childcare. Surveys will also be offered in conjunction with special events, in a variety of locations and at various times to ensure a high rate of response over the course of 6-8 weeks. Incentives will also be considered (from leverage dollars). Allen Homes resident ambassadors will assist in encouraging their residents to take part in the survey and provided with stipends (from leverage dollars) for their effort. The planning team will strive to collect a minimum of 87 completed surveys (60% of Allen Homes residents). A condensed version of the survey will gather feedback from neighborhood residents. These surveys will be available at special events and at partner locations across

the neighborhood such as the Boys and Girls Club of the Central Savannah Area, Antioch Baptist, and neighborhood schools. Electronic versions of both surveys will be available online.

Additional information about existing conditions will be gathered from community partners such as educational performance data from the Richmond County School System; community health data from the Augusta University/MCG/Augusta University Health System; employment data from the Augusta Economic Development Authority, mobility information from the Augusta Transit Authority, public safety data from the Richmond County Sheriff's Office, and AHA will provide resident demographics from its internal tracking system to provide a more complete narrative.

Needs Assessment findings will be presented and discussed with the Steering Committee and Task Forces and shared as the starting point of discussions to further explore and understand existing conditions and opportunities. Survey administrators will also be trained to encourage informal dialogue during survey administration sessions to gather and record additional information.

**E4.** The most important component to the success of our planning process is bringing residents of Allen Homes and the surrounding neighborhood together with key stakeholders and planning partners regularly in conversation. With residents serving on the Steering Committee and every Task Force, and invited to attend all Task Force meetings as well as community workshops and events, the planning team aims to shape a collective vision for the neighborhood. These meetings will be based on Asset-Based Community Development principles to identify, celebrate, and build upon the unique strengths of the neighborhood, including the historic fabric, faith-based institutions, waterfront access, walkability, etc. By bringing all stakeholders together, residents and planning partners will be able to explore the possibilities while understanding potential constraints in order to create an aspirational yet implementable plan.

A minimum of two Allen Homes residents will sit on the Steering Committee so that they feel comfortable participating and expressing their opinions. In addition, we would like to invite an Allen Homes resident or neighborhood resident to co-chair each of the Task Forces along with the

professional identified in the Staffing Plan to ensure the visioning and decision-making process is inclusive, transparent, and reflective of the community's preferences. It is hoped that this experience will also build local capacity and strong advocates to help steer the plan to fruition.

The Task Forces (Housing, People, and Neighborhood) will be responsible for identifying goals and strategies that respond directly to the findings of the needs assessment. Strategies will be analyzed and refined through the lens of evidence-based research into best practices. Using this analysis and with input from the community-wide meetings, the Task Forces will prioritize goals and strategies for the Housing, People and Neighborhood components of the Plan. This process will also determine partners to realize the plan and establish metrics to measure progress short- mid- and long-term. The Steering Committee will review and approve the Task Force recommendations to ensure the plan includes a cohesive set of goals and clearly defined actions for implementation.

**E5.** As shown in Attachment 12, AHA and the City of Augusta have assembled a strong group of knowledgeable local partners committed to the planning process and transforming the Laney Walker-Harrisburg neighborhood. Many have committed financial and supporting resources to contribute to the effort. AHA and the City will lead the process with the assistance of its Planning Partner. Other partners committed to the process are described below with additional partners that we plan to engage. **Housing Plan** – AHA will direct the Housing Task Force, integrating the housing strategies with the goals for the community's revitalization. AHA will draw upon its successful experience developing the Legacy of Walton Oaks and Walton Green. National developer Pennrose Properties and BLOC Global Development Group (Pennrose-BLOC), local non-profit Turn Back the Block, and Antioch Baptist will also play important roles on the Housing Task Force. Pennrose-BLOC has committed \$40,000 in pre-development funds for a potential mixed-income development within the target neighborhood. Turn Back the Block is an innovative local organization focused on the revitalization of historic Harrisburg by increasing home ownership and reducing blight. The organization fosters change and community through community partnerships and enables individuals and families the opportunity to participate in

the rehabilitation of their future homes via sweat equity. Antioch Baptist and its non-profit developer Antioch Ministries Inc. Community Development Corporation will also play a vital role on the Housing Task Force, lending its expertise with rebuilding distressed communities such Laney Walker where it has constructed over 35 new homes.

**People Plan** – The People Task Force will be co-chaired by the Community Foundation of the Central Savannah River Area (CFCsRA) and the Boys and Girls Club of the Central Savannah River Area (CSRA), which will coordinate the efforts of multiple partners to develop a cohesive and targeted People Plan. CFCsRA is committed to engaging, informing, and inspiring donors and nonprofits to build a stronger and more vibrant community by addressing some of the area's most dire issues; issues such as literacy, educational attainment, food access, health and wellness (leverage: \$50,000). The Boys and Girls Club of the CSRA has been providing youth development opportunities for the past 69 years through after school and summer programming that include career development, job readiness, and financial management. *Health Working Group*: Augusta University/MCG/Augusta University Health System, Augusta Locally Grown, and the Harrisburg Health Clinic will spearhead the health-related goals and strategies. The Medical College of Georgia (MCG) studies and recognizes the correlation between health, nutrition, education, unemployment and inadequate housing, and the unparalleled opportunity the CN effort represents to address these issues in the Laney Walker-Harrisburg Choice Neighborhood. To that end it has committed \$25,000 in funds plus in-kind contributions to include professional assistance, materials, equipment, and human capital to help with collecting and analyzing health data, health screening for residents of Allen Homes, and other efforts.

*Education Working Group*: Paine College (HBCU) and Augusta University Literacy Center will explore educational strategies and initiatives from early childhood through adult education and training.

*Employment Working Group*: The Augusta Economic Development Authority and E3 Foundation will lead discussions and coordinate strategies for the Employment Working Group. *Youth Working Group*: Communities in Schools, along with the Boys and Girls Club of CSRA will focus on youth-related

issues spanning leadership, wellness, and recreation. **Neighborhood Plan** – The City of Augusta Department of Planning will chair the Neighborhood Task Force and lead the development of the overall Neighborhood Plan. It will draw upon large-scale complex planning efforts such as the Laney Walker/Bethlehem Revitalization Initiative that has brought together dozens of city partners with area residents to reverse decades of disinvestment in these historic African-American communities and address some of the City's most pressing issues such as affordable housing, access to jobs and services, preservation of local heritage, and sustainable redevelopment. Other key partners will include Augusta Tomorrow, Augusta Canal Authority, Medical College of Georgia Foundation, Historic Augusta, Lucy Craft Laney Museum of Black History, and Greater Augusta Arts Council. The Richmond County Sheriff's Office will also work closely with Allen Homes residents to develop a public safety plan.

**E6.** The planning team will focus on two main initiatives to build trust, awareness, and momentum for the Laney Walker/Harrisburg plan. The first entails a collaboration with the Greater Augusta Arts Council, the public art agency for the City of Augusta, which has led a series of successful community-based installations in the Laney Walker and Harrisburg neighborhoods. These projects have brought together artists and residents to celebrate and explore local history including the Golden Blocks Project, a collaboration with the Lucy Craft Laney Museum of Black History that delved into the history of federal redlining policies and discrimination. The nationally-recognized art project resulted in a mural, manuscript of poetry, an original choral work, and digital walking tour. The agency is committed to working with AHA, Allen Homes, and neighborhood residents on a series of locally-envisioned public art projects within the Choice neighborhood (\$10,000 leverage).

The second initiative will be led by local nonprofit and planning partner Augusta Locally Grown (ALG), which is dedicated to growing the local food community through farmers markets and educational programming. As part of ALG's commitment to the planning process, it will lead community residents in creating 20 ADA-compliant raised community garden beds and a greenhouse on the grounds of the Harrisburg Community Center (\$10,000 leverage).

**E7.** A detailed organizational chart identifying the organizations participating in the planning effort and their respective roles and relationships is included in Attachment 13. AHA, Lead Applicant, and the City of Augusta, Co-Applicant, will be responsible for the management of the overall planning process, including timely reporting to HUD on CNI grant activities and funding, and overseeing the work of the Planning Coordinator. AHA's Douglas Freeman will serve as the overall project manager, providing grant management and directing the planning process, including coordination of other AHA staff and departments—community supportive services, recreation, security, and operations. The Planning Director for the City of Augusta's Division of Planning will coordinate with other City departments including Housing and Economic Development, Police, Public Works, and Health and Human Services.

The Planning Partner, with assistance from a planning consultant, will assist in organizing and staffing the various planning activities including the Steering Committee and Task Forces. The AHA planning team will be responsible for developing and administering the Allen Homes resident survey with assistance from Paine College and input from the Steering Committee. The planning team will work closely with AHA and the Steering Committee to develop and refine the vision, goals and strategies that emerge from the Housing, People and Neighborhood Task Forces, and to develop draft and final versions of the Transformation Plan.

The planning team and committee partners represent leaders from the City government, AHA, Augusta Tomorrow, local organizations, and residents. The Steering Committee will serve as the ultimate decision-making body and comprise representatives of AHA, the City of Augusta, Allen Homes Resident Council, Medical College of Georgia Foundation, Community Foundation of the Central Savannah River Area, Boys and Girls Club, Augusta Tomorrow, Augusta Economic Development Authority, and Augusta University/MCG/Augusta University Health System, and others to be determined.

Three Task Forces have been established. The Housing Task Force will be chaired by AHA. The People Task Force will be co-chaired by the Community Foundation of the Central Savannah River

Area and Boys and Girls Club of the Central Savannah Area, and the Neighborhood Task Force will be chaired by the City of Augusta.

**E8.** A detailed Planning Schedule is included in Attachment 14. The Planning Schedule strives to maximize the participation of Allen Homes residents, community members, and stakeholders, and optimize the resources and investments of key partners. The needs assessment will be completed within the first six months to allow time for analysis, additional exploration of key findings, prioritization of goals and development of strategies. Four (4) community meetings will be interspersed throughout the 2-year planning process to ensure Allen Homes residents and the broader community are kept abreast of the plan's development and have opportunities to provide meaningful input. Meetings will be held to launch the effort and explain the CNI planning process; to present the findings of the needs assessment; to engage the community in a visioning workshop; and present the draft transformation plan. With so many recent investments in the city, a Market Study completed within the first year will be critical to understand current demand and inform the plan strategies.

Major milestones are based on a standard HUD CNI schedule. The Outline with Content will be submitted to HUD at the 12-month mark, the Draft Transformation Plan approximately six months later, and the final plan submission and presentation six months after that.

**E9.** A detailed budget listing sources and uses and additional narrative is included in Attachment 15. AHA will lead a 24-month planning process that will expend \$375,000 in leverage commitments towards planning activities and the requested HUD CNI grant. \$100,000 of Choice funds (leveraged) will be used towards Early Action Activities. As the lead applicant, AHA will review the budget on a monthly basis and provide an accounting of expenditures by planning partners in Quarterly Reports submitted to HUD. AHA and the City of Augusta are committed to raising additional leverage to support the two-year planning process.

**E10.** Documentation is provided in Attachment 16.

**E11.** Documentation is provided in Attachment 16.

**Exhibit F. Likelihood of Implementation**

THE AUGUSTA HOUSING AUTHORITY (AHA)

Individual narrative exhibit file: ExhFLikelihdofImplmnt.pdf

**Exhibit F:** As the City of Augusta expanded, mills closed, the economy shifted, and residents moved towards the suburbs, the historic Laney Walker neighborhood encountered disinvestment leading to vacancies, unstable housing, blighted conditions, and crime. To reverse these downward trends, the City launched the pioneering long-term Laney Walker/Bethlehem Revitalization Initiative in 2008 with the goal of regenerating nearly 1,100 acres of Augusta's urban core. This 50-year revitalization effort is anticipated to provide housing for approximately 10,000 residents for a total investment of \$2.8 billion, create 38,000 new jobs, and result in total investment into the local economy of \$4.5 billion.

On April 1, 2010, the Augusta Commission activated the Urban Redevelopment Agency of Augusta to exercise Augusta's urban development project powers under the Urban Redevelopment Law. On the same day (April 1, 2010), the Commission voted to approve the Laney Walker/Bethlehem Urban Redevelopment Plan by resolution, to focus on utilizing appropriate private and public resources to eliminate and prevent development or spread of slums, to encourage needed urban rehabilitation, and to provide for the redevelopment of slum areas. Complementing the revitalization efforts, the Laney Walker Enterprise Zone was first amended on September 10, 2009 to foster business and services enterprises. The Laney-Walker Bethlehem Urban Redevelopment Area (URA) designation is a strategic tool to prioritize investments in the historic African-American neighborhood, specifically: to provide new affordable single family housing and homes for homeownership on vacant lots; eliminate blight; create rental housing for senior citizens; support the rehabilitation of vacant houses; create more green space; develop neighborhood retail and job opportunities; and celebrate the neighborhood's culture and African American heritage. These goals are squarely aligned with the goals of the Choice Neighborhoods Initiative. The boundaries of the Laney-Walker Bethlehem Urban Redevelopment Area fall entirely within and occupy a significant portion of the Laney Walker-Harrisburg Choice Neighborhood. The URA boundary also includes the target housing site – Allen Homes. Documentation of the resolution is included in Attachment 17. The boundaries of the Laney-Walker Bethlehem URA are indicated on the Neighborhood Map in Attachment 21.

## CHOICE NEIGHBORHOODS PLANNING GRANTS APPLICATION INFORMATION

### ELIGIBLE NEIGHBORHOOD

Name of Neighborhood Laney-Walker Harrisburg

### ELIGIBLE APPLICANT

You must provide the following information for the Lead Applicant and, if applicable, the Co-Applicant

**Lead Applicant:** Augusta Housing Authority

Type of Eligible Applicant  Y Public Housing Agency  Local Government  Tribal Entity  
(check one) PHA Code: \_\_\_\_\_

Nonprofit

Mailing Address: 1435 Walton Way

Executive Officer Name & Title: Jacob Oblesby, Executive Director

Telephone: (706) 312-3158 Fax: 288-1711 Email: joglesby@augustapha.org

Primary Contact Name & Title: Douglas Freeman, Deputy Executive Director

Telephone: (706) 724-5466 Fax: 288-1667 Email: dfreeman@augustapha.org

**Co-Applicant (if any):** Augusta-Richmond County

Type of Eligible Applicant  Y Public Housing Agency  Local Government  Tribal Entity  
(check one) PHA Code: \_\_\_\_\_

Nonprofit

Mailing Address: 535 Telfair St Ste 910, Augusta, GA 30901

Executive Officer Name & Title: Jarvis Sims, Interim Administrator

Telephone: (706) 821-2400 Fax: 821-2819 Email: jsims@augustaga.gov

Primary Contact Name & Title: Jarvis Sims, Interim Administrator

Telephone: (706) 821-2400 Fax: 821-2819 Email: jsims@augustaga.gov

Co-Applicant DUNS and EIN/TIN: \_\_\_\_\_ DUNS: 96-666-869; EIN: 58-1418202

If you have selected an outside Planning Coordinator, provide the following information:

**Planning Coordinator:** Wallace, Roberts & Todd, LLC

Mailing Address: 1700 Market Street, Suite 2800, Philadelphia PA 19103

Executive Officer Name & Title: Woo Kim, Principal

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual attachment file: Att2EligibleAppDoc.pdf*

**MEMORANDUM OF UNDERSTANDING  
BETWEEN THE AUGUSTA HOUSING AUTHORITY  
AND AUGUSTA, GEORGIA  
REGARDING A JOINT APPLICATION FOR  
A CHOICE NEIGHBORHOODS PLANNING GRANT**

This Memorandum of Understanding (MOU) is made and entered into this 4~~2~~ day of September, 2020, by and between the Augusta Housing Authority (hereinafter referred to as "AHA"), and Augusta, Georgia, a political sub-division of the State of Georgia and a Consolidated Government (hereinafter referred to as "City"), is intended to show a strong commitment of both parties to the development of a Transformation Plan for the Laney Walker and Harrisburg Neighborhoods, as provided for in Exhibit 1 to this MOU.

WHEREAS, on July 14, 2020, the U.S. Department of Housing and Urban Development ("HUD") issued the Choice Neighborhoods Planning Grants Notice of Funding Availability (NOFA) for Fiscal Year 2020. Choice Neighborhoods Planning Grants are multi-year grants that assist communities with severe distressed public or HUD-assisted housing to develop successful neighborhood transformation plans and build the support necessary for plans to be successfully implemented; and

WHEREAS, the AHA's HUD-approved 5-year Public Housing Authority Plan and Annual Public Housing Plan and Strategic Plan, affirm the AHA's commitment to evaluate all AHA-owned properties for modernization, development, demolition and/or disposition and prioritize as to highest and best use. The AHA commits to ongoing public input into any redevelopment plans by soliciting input from residents, advocates, neighborhood groups and other stakeholders; and

WHEREAS, the AHA is an innovative public housing authority, managing housing for approximate 5,519, households in Augusta (including Rental Choice Housing Vouchers and site-based assistance programs). Other stakeholders such as the AHA's residents and individuals in the neighborhoods and the overall communities were involved with the planning of these projects; and

WHEREAS, the AHA also has experience in relocating residents as was needed in the above projects; and

WHEREAS, the City has significant experience in neighborhood planning and plan implementation with a long history of working with HUD programs such as the Laney-Walker Bethlehem Revitalization Project that leveraged government bond finances against CDBG Home and NSP Grants to improve low-income neighborhoods in the City, the Permanent Supportive Housing Program and Emergency Solution Grants that have helped improve the quality of life for the communities of City.

NOW, THEREFORE, the parties hereto mutually agree as follows:

**1. PURPOSE**

The AHA and the City will cooperate for the purposes of applying for FY 2020 Choice Neighborhoods Planning Grant funds and undertaking or assisting in undertaking eligible activities identified in the application for Planning Grant funds if awarded a grant. These eligible activities include the development of a comprehensive Neighborhood Transformation Plan and Early Action Activities for the Allen Homes public housing property and the larger East Central planning area. Eligible Planning activities will also include: completion of comprehensive needs assessments related to housing, people and the neighborhood; technical planning studies; involvement of stakeholders including public housing residents, neighborhood residents, public and private organizations, businesses, neighborhood associations and other relevant stakeholders; planning for the collection and strategic use of relevant data; and strengthening the management and decision-making capacity of participating organization. Eligible Early Action Activities are physical improvement, community development, and economic development projects that enhance and accelerate the transformation of the neighborhood and include, but are not limited to, the following: reclaiming and recycling vacant property; beautification, place making, community art projects; homeowner and business façade improvement programs; neighborhood broadband/Wi-Fi, and gap financing for economic

development projects.

## 2. SCOPE OF WORK

The AHA and the City have a commitment to work collaboratively throughout the entirety of the grant, for up to two years, to develop a Transformation Plan and lead Early Action Activities. The AHA shall serve as the Lead Applicant for the purposes of the Choice Neighborhoods Planning Grant application and the City shall serve as Co-Applicant for the purposes of Planning Grant application.

## 3. AUGUSTA HOUSING AUTHORITY (“AHA”) RESPONSIBILITY

In its role as Lead Applicant, the AHA shall have overall responsibility to administer and implement the Choice Neighborhood Planning grant if awarded by HUD. The AHA will be responsible for: a) submitting all pertinent documents and reports to HUD as required by the grant agreement; b) accessing funding through HUD’s Line of Credit Control system (LOCCS); and c) determining the adequacy of performance under project agreements and procurement contracts. The AHA will provide capacity and expertise in neighborhood planning and implementation, including analysis of and coordination with the Comprehensive Plan, and other relevant planning documents. The AHA will coordinate provision of necessary expertise from relevant City departments, e.g., Planning, Community Development, Public Works, Police, Parks and Recreation, and other applicable departments for consultation and information sharing. The AHA will also engage in communication and coordination with community stakeholders within the planning process. The AHA will inform the City of plans and projects undertaken by the AHA that will impact and influence the Choice Neighborhoods Initiative. Finally, the AHA will review analysis of data gathered during the plan as a necessary component of the Neighborhood Transformation Plan.

## 4. CONSOLIDATED GOVERNMENT OF AUGUSTA RICHMOND COUNTY (“City”) RESPONSIBILITY

In its role of Co-Applicant, the City will support the AHA to ensure; a) that the planning project is carried out in compliance with all HUD requirements (grant agreement) in substantial compliance with the information provided in the grant application; b) determine the adequacy of performance under project agreements and procurement contracts; and c) be responsible for the environmental review and any decision-making and action required by City properties.

## 5. MODIFICATION

No waiver, alteration, modification or termination of the MOU shall be valid unless made in writing and signed by the authorized parties hereof.

## 6. TERMINATION

This agreement shall terminate upon completion of all obligations of the parties, or after the twenty-four (24) month grant period of the Choice Neighborhoods Planning Grant, or after the forty-two (42) month grant period of the Choice Neighborhoods Planning Grant, or in the event that the grant is not awarded to the AHA and the City, whichever comes first. This Agreement may be amended at any time in writing and by mutual consent of the parties. The Agreement may be cancelled by either party upon sixty (60) days written notice except where the cancellation is for cause, i.e., a material and significant breach of the provisions of this Agreement, it may be cancelled upon delivery of written notice to the other party.

## **CHOICE NEIGHBORHOODS – CERTIFICATION OF SEVERE PHYSICAL DISTRESS**

I hereby certify that:

1. I am a licensed engineer  architect  (check one).
2. I am not an employee of the Lead Applicant, Co-Applicant (if any), Principal Team Member (if any), Planning Coordinator (if any), Public Housing Authority, or unit of local government in which the housing project identified below is located.
3. The public and/or assisted housing development listed below meets (in the manner described in either subparagraph A or B below) the following definition of severe physical distress:

*Requires major redesign, reconstruction or redevelopment, or partial or total demolition, to correct serious deficiencies in the original design (including inappropriately high population density), deferred maintenance, physical deterioration or obsolescence of major systems, and other deficiencies in the physical plant of the project.*

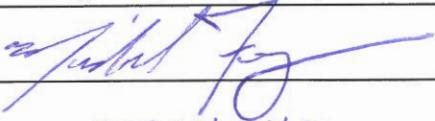

Check one:

A.  I have conducted a physical inspection of the subject property and the development currently meets the above definition of severe physical distress;

Or

B.  The development has been legally demolished and HUD has not yet provided replacement housing assistance, other than tenant-based assistance, for the demolished units. However, the development satisfied the definition of severe physical distress (as defined above) as of the day the demolition was approved by HUD.

## MAPPING TOOL DATA FOR FY2020 CHOICE NEIGHBORHOODS APPLICANTS

Version – 07/15/2020

Target Name: **Laney Walker - Harrisburg**

Target Area ID: 6421710

Email of User: dfreeman@augustapha.org

Name of Lead Applicant: Augusta Housing Authority

Address of Lead Applicant: 526 Hines Street Augusta GA 30901

Email of Lead Applicant: dfreeman@augustapha.org

Name of Target Geography: Laney Walker - Harrisburg

Name(s) of Target Development(s) and type of eligible housing, as submitted by user to the mapping tool:

Development-1: Allen Homes (Public Housing)

Development-2:

Development-3:

Development-4:

Estimated number of all housing units in Target Area (Census 2010): 5166

Estimated population in Target Area (Census 2010): 9930

Is the Target Area within non-metropolitan county or CBSA with population below 500,000 (OMB 2018, PEP 2018): No

### **Eligible Neighborhood Threshold:**

Section III.A.3 of the NOFA states that an eligible neighborhood for Choice Neighborhoods grant funds is a neighborhood with at least 20 percent of the residents estimated to be in poverty or have extremely low incomes. This tool provides the neighborhood poverty/ELI rate for the target neighborhood.

**Target Neighborhood Poverty/ELI Rate (the greater of both rates): 47.11**

### **Distress of the Target Neighborhood Rating Factors:**

This Mapping Tool provides the data used for two of the rating factors under this subheading. See NOFA for awarding of points. Data sources are described at the end of this document.

#### **Neighborhood Poverty:**

Concentration of Persons in Poverty in Target Area (ACS 2018) and Concentration of Extremely Low Income (ELI) Households in Target Area (CHAS 2016).

**Maximum of poverty and ELI rate: 47.11**

#### **Long-term Vacancy:**

Long-term vacancy rate (greater of USPS 2019 / ACS 2018)

**In Target Area: 15.60**

**In Surrounding County/Parish: 9.00**

### **Need for Affordable Housing in the Community Rating Factor:**

Estimated Shortage Ratio of Units Affordable to VLI Renter Households (CHAS 2016)

**Target Area County ratio: 1.78**

**National ratio: 1.71**

**Eligibility to Include Tenant Based Vouchers as Replacement Housing:**

Refer to section III.F.2.b of the NOFA for information related to the one-for-one replacement of housing requirements.

(i) located in a county/parish with a soft rental market: Yes

(ii) located in a Core Based Statistical Area (CBSA) or non-CBSA County where vouchers currently in use are primarily in lower poverty neighborhoods: No

**Eligible for exception based on factors (i) and (ii): No**

## **Data sources and methods:**

HUD's mapping tool overlays the locally defined neighborhood/community boundaries with data associated with that area and estimates the rates of certain indicators in that area using a proportional allocation methodology. For metropolitan areas, the tool uses Census block group (as defined for Census 2010) as the smallest statistical boundary for the available data. For non-metropolitan areas, the tool uses census tract data to account for less precision in low-population areas.

If the locally defined neighborhood/community is partially within two different Census areas, the data for each factor or threshold criteria are calculated based on weighted averages of the estimates of the overlapping areas. The portion of the 2010 housing units located in each Census area serves as the weight for vacancy estimates, while 2010 population serves as the weight for poverty/income estimate calculations. The 2010 housing unit and population data are available to HUD at the block level and thus can be used as the underlying data to apportion each block group and tract's appropriate share of importance in calculating estimates for combined areas

For example, based on a user defined geography, 80 percent of the population in the locally defined neighborhood/community lives in a block group with a poverty rate of 40 percent and 20 percent of the population is in a block group with a poverty rate of 10 percent. The "neighborhood poverty rate" would be calculated as:  $(80\% \times 40\%) + (20\% \times 10\%) = 34\%$ .

## **DATA SOURCES:**

The data are from a variety of sources:

1. **ACS 2018** refers to the US Census American Community Survey 2014-2018 five-year estimates. These are the most recent nationally available data for small geographies at the same Census 2010 boundaries as the other data provided, using a statistical technique that combines five years of data to create reliable estimates for small areas.
2. **CHAS 2016** refers to the Comprehensive Housing Affordability Strategy (CHAS) special tabulations HUD receives of Census ACS data. The CHAS data used for this tool are based on ACS 2012-2016 five-year estimates see [huduser.gov/portal/datasets/cp.html](https://huduser.gov/portal/datasets/cp.html) for more information.
3. **Census 2010** refers to block-level 2010 decennial counts of housing units and population.
4. **USPS 2019** refers to the United States Postal Service long-term vacancy data as of December, 2019.
5. **PEP** refers to the US Census Population Estimates Program data that includes annual estimates of population at the county level. These annual estimates are used to calculate the average change in population over the previous four years. The most recent PEP estimates are from 2018.
6. **PSH 2019** refers to the Picture of Subsidized Housing dataset, which provides counts of assisted households by HUD program and location. This data can be found at:  
[https://www.huduser.gov/portal/datasets/assthsg.html#2009-2019\\_query](https://www.huduser.gov/portal/datasets/assthsg.html#2009-2019_query).

## **ADDITIONAL NOTES ON SPECIFIC VARIABLES:**

**Concentration of People in Poverty** is calculated with data at the block group level from ACS 2018 for metropolitan areas and the tract level for non-metropolitan areas. This indicator represents the percent of people within the target geography who are below the poverty line. The estimated concentration of Extremely Low Income (ELI) households represents an approximation of the percent of households within the specified area whose household combined income is below 30% of the HUD defined Area Median Income (AMI). This ELI indicator is calculated with data from the block group level from CHAS 2016. The final number included in this report for "poverty rate" is the greater of these two indicators.

**Long-term vacancy rates** are calculated with data at the block group level with ACS 2018 and the USPS 2019, which ever source produces the greatest percentage.

For the USPS data, HUD calculates the percent of residential addresses (excluding "no-stat" addresses) that are vacant. In the USPS data, a "vacant" address is one that has not had mail picked up for 90 days or longer. The USPS Vacant addresses can also include vacation or migrant labor addresses so HUD uses ACS data to reduce vacancy counts in these cases.

Using the ACS data, HUD calculates the vacancy rate as the percent of housing units that are "other" vacant. These are units not for sale, for rent or vacant for seasonal or migrant housing. This is considered another proxy for long-term vacant housing.

In theory the USPS data should be a stronger measure of distress than the ACS data because they are for 100 percent of the units (ACS is a sample), are more current (ACS aggregates data over a 5 year period), and are intended specifically to capture addresses 90 or more days vacant. However, USPS data are particularly poor at capturing vacancy in rural areas. As such, we use the ACS as a check on the USPS data so that every location gets a vacancy rate based on the greater of their USPS vacancy rate or their ACS 2013-2018 rate. For more information on HUD's USPS dataset, see:

<https://www.huduser.gov/portal/datasets/usps.html>

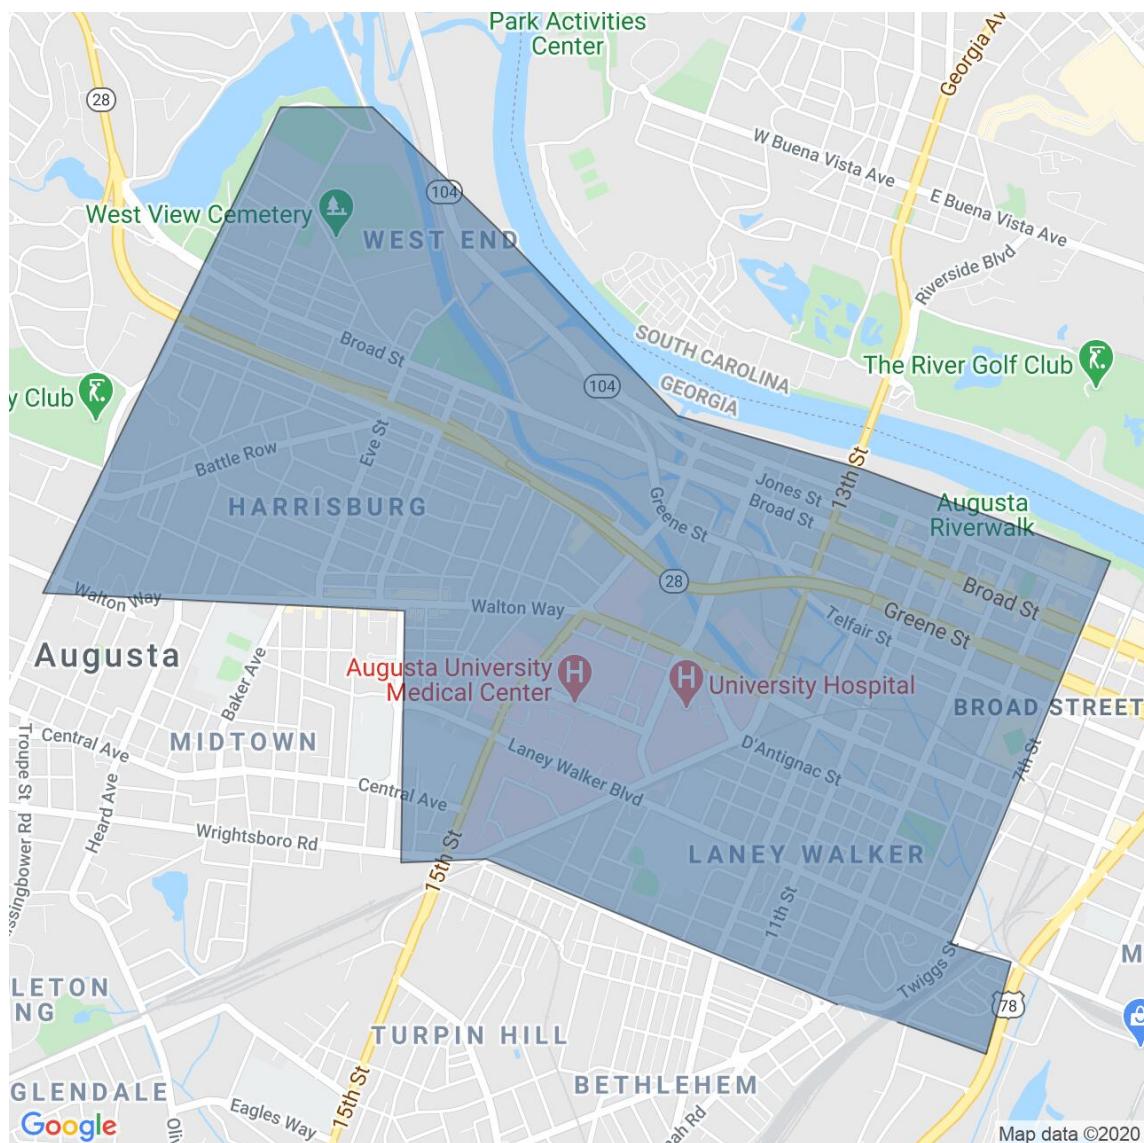

Shortage Ratio of Units Affordable to VLI Renter Households is calculated with data from the CHAS 2016. This indicator is the ratio of very low-income (VLI) renter households (those with household incomes less than 50% of the Area Median Income calculated by HUD) to units affordable and available to these households in the surrounding county or parish. A unit is considered affordable if its rent is no greater than 30% of household incomes in this category, or in other words, 15% of the Area Median Income. A unit is considered available if it is vacant or occupied by a VLI renter household.

*For Eligibility to Use Tenant Based Vouchers as Replacement Housing:*

Under Factor 1, a "loose" rental market is a county/parish with a rental vacancy rate that exceeds the HUD conventional range for a "balanced" rental market by a percentage point or more. The threshold rental vacancy rate for a market depends on the rate of population growth. A slow growth county (<1% per year) would be considered to have a loose rental market if its rental vacancy rate is greater than 5.9%. For moderate (1-2.9% per year) and rapid (>3% per year) growth markets, counties would be classified as having loose rental markets if rental vacancy rates exceed 7.4% or 9.0%, respectively. Data for this calculation come from PEP (population change) and ACS 2018 (rental vacancy). The rate of population change is calculated as the average annual change over with last four years (i.e. 2017 to 2018, 2016 to 2017, and 2015 to 2016.)

Under Factor 2, voucher dispersion is calculated using counts of voucher holders from PSH 2018, while poverty and extremely low income rates are from ACS 2018 and CHAS 2016, respectively. Voucher counts are aggregated at the Census Tract level and CBSA level (or County level for non-CBSA counties.) To qualify for this standard, at least 50 percent of all voucher holders within a CBSA (or non-CBSA county) must reside in Census Tracts with poverty rates (or extremely low income rates) at or below 20 percent.

# The HOUSING AUTHORITY Of The City of Augusta, Georgia

August 28, 2020

Augusta, GA 30901

EntityID: [REDACTED]

Unit ID: 108077

The Housing Authority of the City of Augusta (AHA) is pleased to announce that, in cooperation with the City of Augusta, AHA intends to apply for a Choice Neighborhoods Planning Grant. The Choice Neighborhoods program is a competitive grant program that provides resources for local communities to help transform communities with affordable housing, safe streets, and good schools that every family needs.

If awarded, the Choice Neighborhoods Planning Grant will allow for the development of a comprehensive neighborhood revitalization plan for the combined Laney Walker – Harrisburg District. Local leaders, residents, and other stakeholders, such as the housing authority, the City of Augusta, Richmond County Board of Education, the Sheriff's Department, business owners, nonprofits, and private developers, will come together to create and implement a plan that revitalizes distressed HUD housing and addresses the challenges in the surrounding neighborhood. The revitalization of the Allen Homes development will be a crucial component of this plan.

Due to the ongoing COVID-19 crisis, a much-shortened timeline has been given to us by HUD. The application is due to HUD by September 14, 2020, and should HUD award the City of Augusta and AHA the planning grant, detailed community planning and engagement will begin at the end of 2020 and into 2021.

At this time, AHA is requesting your input. It is your right to ask questions and provide comments. The City of Augusta and AHA must consider your questions and comments as we put together our grant application.

You may ask questions or make comments in several ways:

Email: [choiceneighborhood@augustapha.org](mailto:choiceneighborhood@augustapha.org)

Online: <https://www.augustapha.org/public-housing/choice-neighborhood-grant-feedback/>

In-Person: Drop off this form at the Allen Homes office.

Thank you,

Douglas Freeman

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Re: Planning Partner for Choice Neighborhoods Initiative (CNI) Planning Grant Application

Dear Mr. Oglesby:

On behalf of its three founding organizations, the Medical College of Georgia Foundation, the Community Foundation of the CSRA, and the Boys & Girls Club of the CSRA, the *Laney Walker-Harrisburg Community Partnership* (LWHCP) is proud to serve in the capacity of Planning Partner in support of the Augusta Housing Authority (AHA) and City of Augusta's (City) application for a FY2020 HUD Choice Neighborhood Initiative Planning Grant.

As Planning Partner, LWHCP will work closely with the principal team members including the Augusta Housing Authority (AHA), the City of Augusta (City), together with the residents and many stakeholders living and working within the Laney Walker-Harrisburg community, to develop a Transformation Plan that achieves the goals of this Grant. LWHCP will draw from its vast network of local service providers, anchor institutions, industry/business leaders, faith-based institutions, and state/county agencies to enrich and guide the planning process towards implementation. LWHCP has also engaged WRT, a nationally recognized planning and design firm that specializes in transforming distressed public housing and neighborhoods into successful, mixed-income, mixed-use neighborhoods of choice. WRT will draw upon its broad experience and many lessons learned coordinating the CNI planning process for past successful Choice grantees. Together, LWHCP and WRT will develop place-based strategies that will allow the team to tailor a transformation plan to Laney Walker-Harrisburg's distinct character, history, and challenges.

As you know, LWHCP was the result of the core partners' desire to see long-promised positive transformation in this community – especially in the areas of health, education, and neighborhood revitalization – and their willingness to demonstrate commitment by leveraging a significant commitment of capital and human-capital assets to encourage investment in Laney Walker-Harrisburg. The partners, collectively and individually, have developed and continue to construct capital assets that support these areas of focus, including a 55-acre, \$150M community-centered

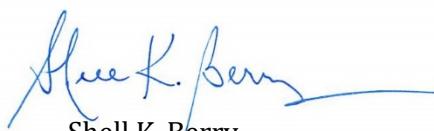

housing and retail development, and 9 Boys & Girls Club centers – three of which are located within the Laney Walker-Harrisburg neighborhood. They also manage over \$400M in assets exclusively earmarked for the improvement health, educational, and community outcomes in the neighborhood, City, State and beyond. It is through the relationships and partnerships of the LWHCP that the AHA and City were able to pull together such an important but challenging project in such a short period of time.

We look forward to serving Laney Walker-Harrisburg with you and celebrating its transformation in the coming days.

Sincerely,

Ian S. Mercier  
President & CEO  
Medical College of Georgia  
Foundation, Inc.

Shell K. Berry  
President & CEO  
Community Foundation  
of the CSRA

Kim Evans  
Chief Executive Officer  
Boys & Girls Club  
of the CSRA

## **1.0 EXECUTIVE SUMMARY**

### **1.1 General Description**

Project Name: Allen Homes Apartments  
Address: 526 Hines Street, Augusta, Georgia 30901  
Property Type: Multi-Family; Public Housing (Section 9 Subsidies)  
Date of Construction: 1961  
Land Size: 16.84 Acres  
Building Size/Type: 38 Residential Buildings / Total Gross area = 158,945 SF  
Number/Type of Units: One-hundred and fifty (150) Dwelling Units

### **1.2 General Physical Condition and Summary**

The property was inspected by a qualified needs assessor on August 11 and August 25, 2020. Pursuant to the NOFA requirements, 10% of each unit type as well as a minimum of 50% of common areas and maintenance/support/mechanical areas were accessed during the physical needs inspection. A Capital Needs Assessment (CNA) identified that the 1961 structures are in fair to poor physical condition and require significant rehabilitation and environmental site remediation to render the structures viable for on-going safe and sanitary housing. Our CNA concluded:

a. Demolition Review Criteria for Obsolescence

Pursuant to 24 CFR 970 and Notice PIH 2012-7, in our professional opinion the Subject Property qualifies for Functional Obsolescence, based upon a multitude of design factors and documentation of extreme Environmental Justice (EJ) issues. The following are observed design deficiency concerns:

- Environmental Concerns – A multitude of environmental conditions pre-existed prior to construction in 1961 including past industrial land use, and railroads on two boundaries (including a sizeable 8-track railroad yard). Post development, additional adjacent land development included a 6-lane highway (I-278), a high-tension power line, and many industrial business operations to the south and east. The property features:
  - o elevated road and train noise;
  - o approximately 10 buildings on the western side of the property are within the fall-zone of high-tension Georgia Power lines;
  - o primary egress and entrance on the northside of the property is subjected to two (2) railroad crossings;
  - o the maintenance shop is a location of both previous and current underground storage tanks;
  - o a multitude of immediate vicinity problematic sites with documented chemical releases and waste generation; and
  - o site characterization and documentation of remedial efforts by Exxon Mobil at the property in 2003 are insufficient to protect human health and the environment.

- The buildings feature a lack of definition between front and rear entrances, in essence barrack-style structures. In addition, many of the patios and porches serving the entrances have no territory of space, missing guardrails, and feature large fall and trip hazards with some porches have unsecured drops of over 18”.
- The site lacks adequate handicap accessibility, including sufficient UFAS compliant units, ADA parking spaces, ramps, curb-cuts, and accessible dumpster locations. Site visibility is hindered by incomplete sidewalk installations post completion of soil remediation by Exxon Mobil.
- The lack of congruity of roads, a hap-hazard block design, fragmented roads/parking areas, small driveways and two railroad crossings at the primary entrance makes for the property to be difficult for emergency vehicles and first responders. The site feature inadequate emergency vehicle access.
- Site security is a concern with poor or lack of perimeter fencing, un-restricted access to the railroads by tenants, and insufficient perimeter site lighting – creating safety hazards for residents and visitors alike.
- The property features very limited off-street parking (137 private lot spaces) and relies heavily upon on-street parking.

b. Demolition Review Criteria for Cost Ineffectiveness

Pursuant to 24 CFR 970 and Notice PIH 2012-7 the Subject Property qualifies for Cost Ineffectiveness, based upon an analysis of the rehabilitation costs to correct deficiencies and aged systems. **The Immediate Project Capital Needs were identified to be \$23,295,094.** A comparison of the Total Development Cost (TDC) to the estimated 16-Division construction/rehabilitation cost resulted in a ratio of **81.47%**. A needs assessment identified immediate needs in the structural elements and on-site infrastructure; including:

- Foundations and Structural Walls: The original brick walls and concrete foundations demonstrate significant evidence of deterioration and past repairs to structural cracks. Evidence of stairstep cracking, structural distress and differential settlement was observed both in brick assemblies as well as replacement white sim-stone assemblies. Select at grade sim-stone is noted to have deterioration of the building material. Areas of exterior structural distress has manifested itself into plaster/GWB cracks in select units. A concern is that it is reported in 2003 the site had approximately 1 to 3 feet of surface soil removed to remediate lead and arsenic in soil. It is apparent during soil replacement, not all areas were compacted or adequately graded, as mortar beds at grade are largely deteriorating, warranting extensive parging, water proofing and additional compacted soil near foundations to provide positive drainage away from the building envelope and footers. In addition, areas of former wooden-batten siding on second floor assemblies were covered in exterior insulated finishing system (EIFS) circa-2005. This repair was done improperly, and with a recalled building material under an expired class action lawsuit. The installation of EIFS over wood siding has been demonstrated to trap moisture and create ideal termite conditions. Past termite and pest infestation issues have been noted at the property. Window assemblies are noted to be failing at an advanced rate and have insufficient Sound Transmission Class (STC) needed for noise.

- Cooling and Heating System including Domestic Hot Water: The buildings feature a hydronic system installed circa-2005, which rely upon an Aqua-therm unit connected to 40-gallon gas-fired domestic water heater. A notorious problem with the Aqua-Therm units is the inability to supply sufficient heating during the coldest months, which can be exacerbated by poor thermal envelope construction, also indicative at Allen Homes. Additionally, today's efficient natural gas fired water heater is larger than units 15 years ago, which do not fit in the existing utility closets. Units have central HVAC connected to exterior condensing units; however, as evidenced in some units the capacity is not sufficient and many residents supplement the air conditioning with window mounted units. Ventilation to the bathrooms is insufficient, hence mold and mildew growth at shower assemblies and near window condensation points.
- Site Infrastructure and Utilities: Lateral site sewer piping at the site was reported to be in poor condition warranting multiple annual service repairs for blockage, root infiltration and general deterioration. Standing water concerns were observed in select low lying areas. Transit water supply piping providing service to the buildings is original and in poor condition. Much of the piping is greater than 4' deep but was apparently disturbed and damaged by excavation trucks during the previously mentioned soil remediation. Frequent leaks occur, and when repairs are made the existing pipe often disintegrates creating more extensive repairs. Complete replacement is warranted, including new building shut off-values for water supply to ease maintenance burdens. Accessible (unsecured) high pressure gas main valves at the northeast corner of the property should be better isolated and protected. Site hardscapes are all in poor physical condition, warranting significant replacement.
- Environmental Site Concerns: Historic environmental concerns, including the presence of an industrial chemical manufacturing facility for more than 80 years on the site. Limited investigation and remediation by Exxon Mobil (successor to Virginia Carolina Chemical Corp) did occur in 2003, however the work does not appear to be completed per today's standards. A professional geologist, licensed in the State of Georgia, has done an evaluation of the site and recommends advanced remediation methods to render the property safe for residential land use. The cost of the vapor mitigation system in all structures and geomembrane capping is approximately \$1.53million. In addition, there are 10 site buildings that are situated within the fall zone distance of the western adjacent high-tension power line easement, and there are 6 buildings subjected to excessive noise from the proximity of a 6-lane highway. The presence of railroads and two railroad crossings at two boundaries creates additional noise and safety concerns for residents.

Assuming the property undergoes the year 1 repairs and recommended significant rehabilitation, a 20-yr R4R schedule has been created of the project post rehabilitation:

1-20 YEAR TERM	TOTAL RESERVE	AVERAGE ANNUAL COST PER UNIT
Uninflated Cost	\$ 1,113,999	\$ 371
Inflated Cost (2.5%/year)	\$ 2,537,791	\$ 846

## 8.0 CERTIFICATION

The Needs Assessor certifies that the data presented in this report is representative of site conditions observed during our inspection. We understand that this report will be used by The Client to document to the U.S. Department of Housing and Urban Development the current physical condition and needs of the property. The Needs Assessor certifies that the review was in accordance with the HUD requirements applicable on the date of the Review and that we have no financial interest or family relationship with the officers, directors, stockholders or partners of the Borrower, the general contractor, any subcontractors, the buyer or seller of the proposed property or engage in any business that might present a conflict of interest.

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual attachment file: Att8StructuralDefDoc.pdf*

## ATTACHMENT #8: STRUCTURAL DEFICIENCIES

Allen Homes, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

Photo 1: EIFS over former wood batten siding. Poor installation of a faulty product (CSPC recall on EIFS)

Photo 2: Typical stairstep structural cracking at brick

Photo 3: Typical stair step cracking in corners of buildings

Photo 4: Example of damaged or displaced mortar beds in all end/side walls of buildings (red arrows denote damage)

Photo 5: Transit pipe water mains continually rupture and leak, creating excessive maintenance costs

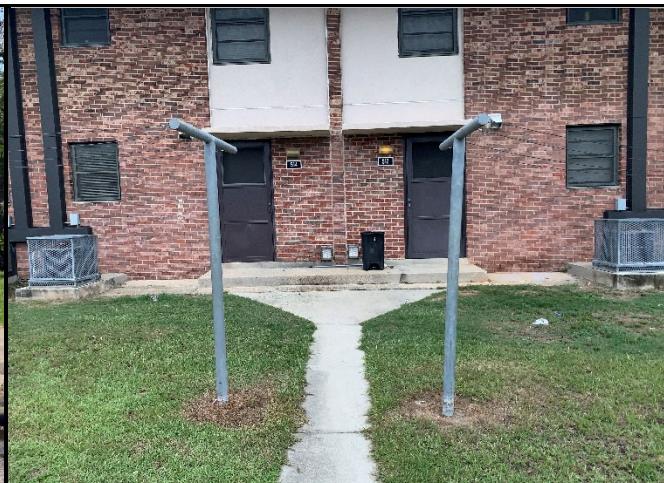

Photo 6: Example of poor sidewalks (inadequate width and drainage) and unused laundry line poles

## ATTACHMENT #8: STRUCTURAL DEFICIENCIES

Allen Homes, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

Photo 7: Original bathroom sink, fixtures and ceramic flooring  
(note toilet is a replaced water saving device)

Photo 8: Typical condition of kitchens with 20+ year old cabinetry and appliances.

Photo 9: Aquaterm HVAC units need redesign and replacement. They do not operate well for the property.

Photo 10: example of structural displacement damage on plaster ceilings and walls of select units

Photo 11: Typical brittle plaster conditions throughout.

Photo 12: Example of ceiling damage due to moisture infiltration (roofing)

## ATTACHMENT #8: STRUCTURAL DEFICIENCIES

Allen Homes Apartments, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

Excerpts from the Capital Needs Assessment (CNA) for Allen Homes Apartments, prepared by Dominion Due Diligence Group (D3G), dated August 31, 2020. These excerpts from the CNA report detail significant structural and building system deficiencies at the Paterson Court Apartments, which were originally reported to have been constructed in 1961. As-built construction drawings dated 1965 were reviewed during this study. Immediate needs equal over \$23million (73% of TDC value), and 20-year reserves have been calculated based upon the condition post rehabilitation.

**Foundations and Structural Walls:** The original brick wall assemblies and concrete foundations demonstrate significant evidence of both existing deterioration and past repairs to structural cracks and displaced mortar beds. Areas of stairstep cracking, evidence of structural distress and differential settlement, was observed both in brick assemblies as well as replacement white sim-stone assemblies. Select at grade sim-stone areas are noted to have deterioration of the building material. Areas of exterior structural distress has manifested itself into plaster/GWB cracks in select units. A concern is that it is reported in 2003 the site had approximately 1 to 3 feet of surface soil removed to remediate lead and arsenic in soil. It is apparent during soil replacement, not all areas were compacted or adequately graded, as mortar beds at grade at largely deteriorating, warranting extensive parging, water proofing and additional compacted soil near foundations to provide positive drainage away from the building envelope and footers. In addition, areas of former wooden-batten siding on second floor assemblies were covered in EIFS circa-2005. This repair was done improperly, and with a CSPC recalled building material under an expired class action lawsuit. The installation of EIFS over wood siding has been demonstrated to trap moisture and create ideal termite conditions. Past termite and pest infestation issues have been noted at the property. Window assemblies are noted to be failing at an advanced rate and have insufficient Sound Transmission Class (STC) needed for noise.

**Cooling and Heating System including Domestic Hot Water:** The buildings feature a hydronic system installed circa-2005, which rely upon an Aqua-therm unit connected to 40-gallon gas-fired domestic water heater. A notorious problem with the Aqua-Therm units is the inability to supply sufficient heating during the coldest months, which can be exacerbated by poor thermal envelope construction, also indicative at Allen Homes. Additionally, todays efficient natural gas fired water heater is larger than units 20 years ago, which do not fit in the existing utility closets, presenting

## ATTACHMENT #8: STRUCTURAL DEFICIENCIES

Allen Homes Apartments, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

installation and supply concerns. Units have central HVAC, connected to exterior condensing units, however, as evidenced in some units the capacity is not sufficient and many residents supplement the air conditioning with window mounted units. Ventilation to the bathrooms are insufficient and they rely upon operable windows, hence many bathrooms feature mold and mildew growth at shower assemblies and near window condensation points.

**Site Infrastructure and Utilities:** Lateral site sewer piping at the site was reported to be in poor condition warranting multiple annual service repairs for blockage, root infiltration and general deterioration. Standing water concerns were observed in select low lying areas, largely being produced by condensate water pooling at the rear of most buildings. Transit water supply piping providing service to the buildings is original and in poor condition. Much of the piping is greater than 4' deep but was apparently disturbed and damaged by excavation trucks during the previously mentioned soil remediation. Subsequently leaks occur, and when repairs are made the existing pipe often disintegrates creating more extensive repairs. Complete replacement is warranted, including new building shut off-values for water supply should be replaced to ease maintenance burdens. Accessible (unsecured) high pressure gas main valves at the northeast corner of the property should be better isolated and protected for NEPA explosion pipeline separation distance. Parking, walks, and hardscape are all in poor physical condition, warranting significant replacement.

**Environmental Site Concerns:** Historic environmental concerns, including the presence of an industrial chemical manufacturing facility for more than 80 years on the site. Limited investigation and remediation by Exxon Mobil (successor to Virginia Carolina Chemical Corp) did occur in 2003, however the work does not appear to be completed per today's standards. A professional geologist, licensed in the State of Georgia, has done an evaluation of the site and recommends advanced remediation methods to render the property safe for residential land use. The cost of the vapor mitigation system in all structures and geomembrane capping is approximately \$1.53million. In addition, there are 10 site buildings that are situated within the fall zone distance of the western adjacent high-tension power line easement, and there are 6 buildings subjected to excessive noise from the proximity of a 6-lane highway. The presence of railroads and two railroad crossings at two boundaries offers additional noise and safety concerns for residents.

## ATTACHMENT #9: DESIGN DEFICIENCIES

Allen Homes, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

Environmental Concerns:  
Railroad Tracks; x2 Railroad crossings; and 6-lane highway

Barrack-style buildings, with poor street architecture

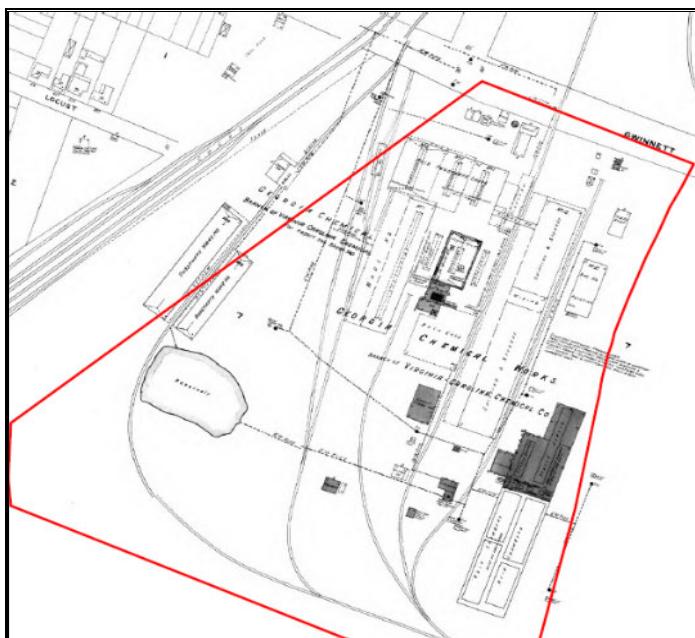

Inadequate emergency vehicle access

Inadequate site connectivity for Handicap Design - ADA/UFAS and resident safe visibility

Limited on-site and off-site (street) parking throughout

Environmental Concerns:  
Industrial neighborhood on all boundaries; 10 track railroad yard adjacent; high-tension power lines (fall hazard); and current/past underground

Fragmented block layout throughout the entire site

Historical Mapping: Site was a chemical manufacturer from 1880 to 1960, Redline denotes current property boundary. Entire site was former Georgia Chemical, and then Virginia Carolina Chemical Co. for 80+ years.

Historical Aerial Photograph: 1957 Aerial shows site as the former chemical company, until demolition in 1960 and reconstruction of Allen Homes in 1961. Note entire site of Allen Homes was a former chemical facility.

## ATTACHMENT #9: DESIGN DEFICIENCIES

Allen Homes, Augusta, Georgia  
HUD Choice Neighborhood Planning Initiative

EIFS siding and sim-stone additions in 1996 faulty, but also add generic 1-dimensional look to the facades

Lack of handicap accessible site design, including lack of adequate curb cuts, ramps, or sufficient sidewalk width

Red arrow denotes 6-lane highway on eastern boundary, adversely subjecting 7 buildings to elevated DNL noise

Parking insufficiency and noted dumpster enclosure issues

Note proximity of CSX railroad and track, and highway, to entrance of property.

Note chemical tanker on boundary road coming out of industrial area to the south. High tension power lines on property, subjecting 10 buildings to "fall hazards"

## The Housing Authority of the City of Augusta Interoffice Memorandum

To: Jacob L. Oglesby  
Executive Director

Date: November 1, 2002

From: Richard Arfman *RA*  
Director of Planning  
and Development

RE: Allen Homes  
GA06P001008

Earlier this year, we were notified by the Environmental Protection Agency (EPA) of possible soil contamination at Allen Homes resulting from a fertilizer plant operating on the site from 1880 to 1957. EPA has concluded preliminary soil testing at Allen Homes and has determined high levels of lead and arsenic in the sub-soil. The detected levels do not present an immediate health hazard, however, EPA requires the contaminated soil be removed to eliminate any potential health effects from long term exposure to the soil.

Additional soil testing is needed to determine the specific areas and depth of the contaminated soil. Prior to further testing, Access Authorization documents are required for Exxon Mobil Corporation and EPA. Our attorney has reviewed both forms and recommends approval.

A Public Availability Meeting has been scheduled for November 14, 2002, at Allen Homes to inform the residents of the issue and to answer any questions. Further testing will be performed in November and December 2002 and actual soil removal is scheduled to start in early 2003.

Recommend Board approval to execute the enclosed Access Authorization forms for Exxon Mobil Corporation and EPA.

## ACCESS AUTHORIZATION

1. I, \_\_\_\_\_, am an authorized representative of the Augusta Housing Authority, the owner of the Allen Homes property located in Augusta, GA (the "Property") and as such I have the authority to sign this authorization.

2. I grant authorization to EXXON MOBIL CORPORATION ("ExxonMobil"), its environmental consultants (one or more independent contractors hired by ExxonMobil, together with their subcontractors), together with the Environmental Protection Agency ("EPA"), Georgia Department of Natural Resources, Environmental Protection Division ("EPD") and their agents, employees, contractors and other authorized agents, to enter the Allen Homes property located in Augusta, GA. This authorization allows ExxonMobil, its officers, employees, contractors, other authorized representatives, together with EPA, NCDENR, and their agents, employees, contractors and other authorized agents, to have access to the Property to conduct sampling and a time-critical removal action. ExxonMobil's activities at the Property may include, but not be limited to, the following:

- a. the taking of such soil, water, and air samples as may be determined to be necessary;
- b. the drilling of holes;
- c. other actions related to the investigation of surface or subsurface contamination;
- d. the taking of a response action including excavation and stockpiling of contaminated soil;
- e. transportation and disposal of all wastes to a facility approved by the EPA;
- f. performing confirmation soil sampling and treatment or disposal of soil;
- g. site restoration activities;
- h. transporting equipment onto and about the Site as necessary to accomplish the above activities.

3. The consent for access and use granted herein will commence in October 2002, and will continue until remedial activities are completed.

4. I realize that these actions by ExxonMobil are expected to be undertaken pursuant to EPA's requests, under an Administrative Order on Consent ("AOC") or other similar document, issued by the EPA, and its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (Superfund), 42 U.S.C. Section 9601 *et seq.*, as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) (Public Law 99-499).

5. I understand that the contemplated actions may involve excavation or other temporary disturbance of the physical property. It is my further understanding that it is the intent of

ExxonMobil to return the surface appearance and condition of the Property to the same conditions as existed prior to the initiation of the activities contemplated herein, to the extent reasonably achievable.

6. This Authorization is binding upon and inures to the benefit of Grantor and ExxonMobil and their respective heirs, executors, administrators, personal representatives, successors, transferees and assigns.

7. This Authorization constitutes the parties' entire agreement on this subject. There are no written or oral representations or understandings that are not fully expressed in this Agreement. No change, waiver, or discharge is valid unless in writing and signed by the party against whom it is sought to be enforced.

8. This Authorization is not and shall not be construed as an admission of any issue of fact or law or as an admission or adjudication of any liability and shall not be admissible in any other suit or proceeding except a suit or proceeding to enforce the terms contained herein.

9. Grantor represents and agrees that the only party having present ownership interest in the Property is Grantor, and that no other person or entity has any present legal or equitable title to or any leasehold interest in such Property or any causes of action in reference thereto, except for the leasehold tenancies in the individual housing units held by the residents of Allen Homes, a government owned housing complex.

10. Grantor and ExxonMobil acknowledge that this Authorization has been negotiated at arm's-length and, therefore, agree that any rule of construction of contracts resolving any ambiguities against the drafting party is waived and shall be inapplicable to this document.

11. If any part of this Authorization is for any reason found to be unenforceable, all other portions nevertheless remain enforceable.

12. The waiver of any breach of any term or condition of this Authorization does not waive any other breach of that term or condition or of any other term or condition.

13. This Authorization must be construed - and its performance enforced - under Georgia law.

14. Please return this signed and dated Access Authorization to:

Kyle Harris, Superfund Response Consultant  
Exxon Mobil Corporation  
601 Jefferson Street, Room 1221  
Houston, Texas 77002

Date: \_\_\_\_\_

Signature: \_\_\_\_\_

## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

### REGION 4

ATLANTA FEDERAL CENTER  
61 FORSYTH STREET  
ATLANTA, GEORGIA 30303-8960

### ACCESS AUTHORIZATION

1. I, Richard Arfman, am the Director of Planning and Development of the Augusta Housing Authority and as such I have the authority to sign this authorization.
2. I grant authorization to the United States Environmental Protection Agency (EPA), its officers, employees, contractors and other authorized representatives to enter the Allen Homes housing complex property located adjacent to New Savannah Road, Peters Road, Gordon Highway, and Laney Walker Road (the "Site"). The Site is currently owned by Augusta Housing Authority. This authorization allows EPA, its officers, employees, contractors and other authorized representatives to have access to the Site to conduct a time-critical removal action. EPA's activities at the Site will include, but not be limited to, the following:
  - a) Conduct a sampling investigation to determine the extent of contamination throughout the housing complex and potential off-site migration pathways. OSC will make a determination if concentrations of hazardous substances on the property pose a risk-based imminent and substantial threat to human health and the environment. If an imminent and substantial threat exists, a clean up strategy will be developed with the responsible party and implemented.
  - b) Excavate the contaminated soils until the established risk-based cleanup goals have been met.
  - c) Restore areas which are disturbed by the removal action to their pre-removal state to the maximum extent practicable.
3. The consent for access and use granted herein will commence on November 1, 2002 and will continue until completion of the removal action.
4. I realize that these actions by EPA are undertaken pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (Superfund), 42 U.S.C. Section 9601 *et seq.*, as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) (Public Law 99-499).
5. Please return this signed and dated Access Authorization to:

Tim Neal, On-Scene Coordinator  
Emergency Response and Removal Branch  
Environmental Protection Agency, Region 4  
61 Forsyth Street  
Atlanta, GA 30303

Augusta, GA 30901

Dear Ms. Brigham,

Per your request, attached are the Part I violent crime statistics for the Laney Walker – Harrisburg Market Area and the County of Richmond for years 2017 – 2019.

All Incidents reported conform to the Federal Bureau of Investigations Uniform Crime Reporting standards for 2017 – 2019. Population counts for the County and Laney-Walker Harrisburg target area is based on the US Census Bureau data.

The Richmond County Sheriff's Office certifies that this information is true and accurate. If you have any questions, please contact our office at (706) 821-1068.

Regards,

Re: FY2020 Laney Walker-Harrisburg Choice Planning Grant Application

Dear Mr. Oglesby:

As Pastor of the Antioch Missionary Baptist Church, I fully support the Augusta Housing Authority (AHA) and City of Augusta's application for a FY2020 Choice Neighborhoods Planning grant to develop a comprehensive plan for the transformation of the Laney Walker-Harrisburg neighborhood. We are pleased to serve on the Community Advisory Committee and the Neighborhood Task force for the duration of the two-year grant period. Our church would also like to commit funding to the planning effort.

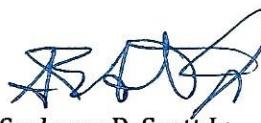

At Antioch, our mission is "to reconcile persons to God through Jesus Christ and to restore their lives, through worship, ministries, and fellowship, to working order in harmony with God's design and will, enabling them to become witnesses of Christ to the least, the less, and the lost." Our ministry work not only goes out into this community to spread the gospel, but our congregation donates regularly to initiatives that support the health and welfare of its residents. Since the 1990s, Antioch has made donations to the Medical College of Georgia to support Sickle Cell and other research that benefits the population in and around our church.

Antioch has demonstrated leadership in a holistic ministry, bringing forth changes and growth religiously, economically, educationally, politically, and socially throughout the community. The church created Antioch Ministries, Inc., (a 501(c) (3) non-profit community developer) in 1992, and has acquired more than 80 blighted and vacant properties for redevelopment over the past several years. Additionally, we led the effort to completely gut and restore over 25 housing units in the Laney Walker-Harrisburg community. In parallel to the City of Augusta's efforts, we have constructed over 40 new single-family homes which have been sold to eligible low and moderate-income families. We also led the design and construction of the 5000 square foot, Laney Walker Enterprise Center, which houses 5 emerging businesses and serves as a community-based training facility.

We are excited to learn that our friends at the Housing Authority and City have taken on this planning effort, and we look forward to working with you all along with members of the Laney Walker-Harrisburg community in planning for the transformation of this neighborhood.

Sincerely,

  
Reverend Kenneth B. Martin  
Pastor-Antioch Baptist Church

  
Scylance B. Scott Jr.  
Executive Director – Antioch Ministries

Re: Laney Walker-Harrisburg Choice Neighborhood Planning Grant Proposal

Dear Mr. Oglesby:

On behalf of the Augusta Canal Authority, I would like to extend our full support of the Augusta Housing Authority and City of Augusta's application for a FY2020 Choice Neighborhoods Planning grant to develop a comprehensive plan for the transformation of the Laney Walker-Harrisburg neighborhood.

As you know, the Augusta Canal Authority has done extensive work within the Laney Walker-Harrisburg community as the canal itself runs directly through the neighborhood. Specifically, and through our *Third Level Canal* study, the Authority hosted many of the community's residents in a series of interactive public sessions to ask them how we could best improve the areas surrounding the canal. These sessions also included a Community Preference Survey as well as a survey questionnaire to help the Authority determine the community's preference for various styles of development. The resulting vision is of a vibrant community that celebrates the values of historic preservation, quality housing, community-building institutions, accessible services, economic opportunities, and ultimately an enhanced quality of life – all which align perfectly with the Choice Neighborhoods program.

The efforts of the Authority have extended from these sessions and work is underway in the Laney Walker-Harrisburg community. The Authority has worked very closely with the City's Department of Housing and Community Development to build new homes and renovate Dyess Park adjacent to the canal in an area that was recently covered in blight and vacant lots. Additionally and of the most significant commitments of the Canal Authority was the relocating of the Mother Trinity Christian Methodist Episcopal (Trinity CME) Church – an effort that saved this community treasure from demolition – moving it from the contaminated Atlanta Gas Light property to a site adjacent to the third level of the canal on Eighth Street.

The Canal Authority has committed to extend these efforts within the Laney Walker-Harrisburg neighborhood and has requested funding through the 2020 special purpose local option sales tax (SPLOST) program, the National Park Service, GA DOT & DNR, and the African American Cultural Heritage Action Fund, among several others. Funding will include renovation of the Trinity CME church into a community center, cleaning and maintenance of the third level canal in the Laney Walker-Harrisburg neighborhood, and support of trail and bridge construction, signage, and additional canal improvements.

The Canal Authority also agrees to participate on the *People* committee as an extension of our educational mission. The Authority – through its Discovery Center – also provides educational instruction to students living in the Laney Walker-Harrisburg neighborhood. Curricula and lesson plans in a range of subjects – including science, history, economics, and language arts - have been created to meet Georgia educational standards for pre-kindergarten through grade 12. Our Educational Program Coordinator, hired in 2008, hires and trains our tour guides, creates materials for the educational programs, and conducts presentations at schools and community programs in and around the Laney Walker-Harrisburg area.

The Augusta Canal Authority is proud to have been a partner with the Laney Walker-Harrisburg community and we look forward to doing great work in partnership with the Augusta Housing Authority and City of Augusta through the Choice Neighborhoods planning process.

Sincerely,

Richard Isdell  
Board Chairman  
Augusta Canal Authority

PO Box 31063  
Augusta GA 30901  
AugustaLocallyGrown.org

September 8, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of Augusta Locally Grown, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker Harrisburg neighborhoods. Additionally, I am pleased to serve on the People subcommittee for the duration of the planning period.

Augusta Locally Grown (ALG) is a 501c3 nonprofit organization dedicated to growing the local food community throughout the Central Savannah River Area through farmers markets and educational programming. In 2012, we forged strategic long-term partnerships in the Harrisburg community. The Veggie Park Farmers Market (VPFM) was born from these efforts, and six years later runs several healthy food access programs, including SNAP doubling at the market and Georgia's first vegetable prescription program, Georgia Food for Health (GF4H). GF4H provides nutritional coaching, cooking classes, and household vegetable prescriptions for individuals with diet related diseases. Participants are able to redeem prescriptions at the VPFM. Since the GF4H inception, over \$300,000 income has been generated for local farmers, and an additional twenty jobs created in the community.

In 2020, ALG signed an agreement with the City of Augusta that allocates vacant land and properties for the use of farmers markets and community gardens. ALG will use it's proven farmers market model to daisy-chain markets throughout the Laney Walker area doubling SNAP and vegetable prescription access. The first of these markets has begun in the Laney Walker neighborhood with a firm commitment of \$10,000 per year of operating costs. There are two others in the planning stages for 2021-2022, each with an annual cost of \$10,000.

In 2021, ALG, in partnership with the MCG Foundation, the Community Foundation for the CSRA and multiple nonprofit partners in the Harrisburg neighborhood, will help plan and move into the Harrisburg Community Center which will enable us to operate the VPFM and GF4H programs on a double-effort scale. ALG has committed \$10,000 for creation of twenty ADA compliant raised garden beds and a greenhouse on the property grounds.

PO Box 31063  
Augusta GA 30901  
AugustaLocallyGrown.org

The Board of Augusta Locally Grown and I are excited to work with the Housing Authority, the City of Augusta, and all of its partners to revitalize and grow a healthier Laney Walker Harrisburg neighborhood.

Sincerely,

Rebecca van Loenen  
Executive Director  
Augusta Locally Grown, INC

Dear Mr. Oglesby,

On behalf of Augusta Tomorrow, Inc., we fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Harrisburg and Laney Walker neighborhoods. Additionally, we are pleased to serve on the Steering Committee as well as the Downtown Neighborhood Task Force subcommittee during the planning period.

Since the early 1980s, Augusta Tomorrow has steadily planned and promoted economic development in downtown Augusta, and has been at the forefront of master planning efforts aimed at Augusta's urban core. As a non-profit consortium of local business leaders, our organization in conjunction with the City of Augusta funded and oversaw a 20-year urban area master plan that was completed in 2008 linking Augusta's downtown historic neighborhoods to the Savannah River. After a year of planning in 2009, a second 20-25 year master plan spearheaded by Augusta Tomorrow was endorsed by the Augusta Commission. This current plan links Augusta to neighboring North Augusta, SC, and thoughtfully proposes ideas to elevate all areas of the urban core including the Laney Walker and Harrisburg neighborhoods.

A previous project of interest within the grant's catchment area includes Springfield Village Park, which celebrates the legacy and aspirations of the oldest African American congregation in the United States and the community from which it sprang. Through private investment as well as SPLOST funding, Augusta Tomorrow and the Springfield Village Foundation constructed the park, a reflecting pool, interpretive plaques, and a 45-foot stainless steel sculpture by Richard Hunt to highlight the park. Fortunately, the beautiful park is well kept and serves as a city attraction to celebrate the church's legacy while also showcasing a successful public-private partnership at work.

Augusta Tomorrow, Inc. will commit to supporting the Choice Neighborhood Grant through its service on the above committees, as well as through in-kind support, with a value of \$50,000 during the planning process in 2021 and 2022 through the following:

- With the City of Augusta and housing departments, convening meetings of interested parties at regular intervals to keep the Master Plan projects on track to be executed, particularly in *The Westobou Vision* area in the Central Downtown Core, from 15th Street to 5th Street, and to the Savannah River.
- Assisting the City of Augusta and Steering Committee in forging contacts and identifying developers.
- Helping to acquire land parcels for development.
- Updating *The Westobou Vision* through downtown business surveys, development research, and maps.

- Maintaining Springfield Village Park in tandem with the Springfield Village Foundation to include general liability, utilities, monthly maintenance, and repairs in the amount of \$15,000 annually.

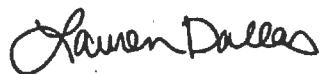

Augusta Tomorrow's Executive Director, the initiative's committee's co-chairs, and its Board of Directors will work diligently to ensure the success of the program in tandem with the Steering Committee and Neighborhood Task Force.

We look forward to working on this important project and are excited for the possibilities to improve upon the Laney Walker and Harrisburg neighborhoods. We fully anticipate this program and grant can serve as the example and guide for other communities that are facing similar challenges.

Sincerely,

Brian Rhodes

Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the membership and employees of Augusta National Golf Club, I write to you to today to express our full support for the Augusta Housing Authority and the City of Augusta's application for a Choice Neighborhoods Planning Grant.

Central to the mission of Augusta National is our responsibility to serve this community, which has so generously and consistently supported us for decades. We are, therefore, honored to join our longtime partners at the Community Foundation for the CSRA, among others, in pursuing this generational opportunity to transform the Laney-Walker Harrisburg neighborhood.

As an expression of our support, Augusta National will match the Community Foundation's commitment of \$50,000, to be directed exclusively to the planning for this important initiative.

We welcome this opportunity to improve and enrich the city we proudly call home, and we look forward to assisting in the success of this exciting project. Thank you for your thoughtful consideration of this application and your efforts to make Augusta a better place to live for everyone.

Sincerely,

Fred S. Ridley

Re: Supportive Services, Laney Walker-Harrisburg Choice Neighborhood Planning Grant Proposal

Dear Mr. Oglesby:

The Medical College of Georgia (MCG) is pleased to offer its full partnership and support to the Augusta Housing Authority (AHA) and City of Augusta's application for a HUD FY2020 Choice Neighborhoods (CN) Planning Grant to develop a comprehensive neighborhood transformation plan for the Laney Walker/Harrisburg community.

MCG is the only public medical school in Georgia and the 8<sup>th</sup> largest medical school in the United States. We are geographically situated adjacent to the Laney Walker/Harrisburg Community. Our Departments of Population Health Sciences, Family Medicine, and Internal Medicine, and our Institute of Public and Preventive Health, have extensively studied and recognize the array of social determinants of health including inadequate food and nutrition, lack of education, unemployment, and inadequate housing in our area. The convergence of interests locally and nationally has created an opportunity for HUD to use housing and community development policy to improve population health. Specifically, the Choice Neighborhood (CN) program appears to bring a neighborhood/community-based approach to redevelopment, which allows partners like yourselves to address health and educational disparities holistically.

Completed in 2019 and led by our Department of Population Health Sciences, MCG published in the *Journal of Hospital Management Health Policy* a paper titled "A logic framework for evaluating social determinants of health interventions in primary care." Our researchers determined, after evaluating a population of individuals distinctly similar to the residents of Laney Walker-Harrisburg, that several clear challenges greatly (and negatively) affected health outcomes: food insecurity, lack of education/income/employment, inadequate housing, and social support. Each of these challenges, we believe, are central to HUD's CN thesis and are set to be addressed by the AHA, City, and its planning partners.

We believe that primary care enhances health equity because its functions (first contact access, patient-focused care over time, comprehensiveness, and coordination of care) are especially beneficial to disadvantaged populations. Primary care also figures prominently in the patient-centered medical home, which aims to personalize, prioritize and integrate care to improve the health of whole people, families, communities and populations (our health system, Augusta University Health, is the area's only National Committee for Quality Assurance recognized Level 3 Patient Centered Medical Home).

To this end, the Medical College of Georgia and Augusta University Health wish to serve as a partner to the AHA and City's Choice Neighborhood transformation planning process and commit to serving as members of the Steering Committee and the People (Health) Task Force. We will allocate resources to include \$25,000 in funds and resources of in-kind contributions to include professional assistance, materials, equipment, and other human capital. Specifically, our Department of Population Health Chair agrees to partner with the AHA to assist it with the collection and analysis of health and other data and will commit a faculty member to assisting with these efforts. Our Department of Family Medicine Chair agrees to provide faculty or staff support for screening or other health services to the residents of Allen Homes in partnership with Harrisburg Family Health Services – throughout the planning process. These partners will also coordinate their efforts with Augusta Locally Grown to continue their "Food RX" program within the neighborhood.

Lastly, MCG will continue to commit residents and faculty to the student-run community outreach clinics located in the Laney Walker-Harrisburg neighborhood, as they have since 1989, and we will encourage our medical students – who will obtain community outreach credit – to participate in this effort.

We are grateful to be a partner in this effort and are excited to witness the great benefit the Choice Neighborhood planning and transformation process will have to our partners, patients, and friends in the Laney Walker-Harrisburg community.

Sincerely,

Re: Laney Walker-Harrisburg Choice Neighborhoods Planning Grant

Dear Mr. Oglesby:

Boys & Girls Clubs of the CSRA is pleased to serve as a planning partner with the Medical College of Georgia Foundation and the Community Foundation of the CSRA, on the application for a 2020 Choice Neighborhoods Planning Grant for the revitalization of the Laney Walker-Harrisburg community, during the grant period January 2021-December 2022. Receipt of a Choice Neighborhoods grant would greatly benefit the quality of life for Laney Walker-Harrisburg residents and residents of the surrounding neighborhoods, including downtown Augusta.

Boys & Girls Clubs of the CSRA has been providing youth development opportunities for the past 69 years, through impactful after school and summer programming. We serve youth ages 6-18, and our mission "to inspire and enable all young people, especially those who need us most, to reach their full potential as productive, caring, and responsible citizens" is realized when our youth achieve 4 outcomes: Academic Success, Healthy Lifestyles, Good Character and Citizenship, and Career Development and Job Readiness. We have a total of 9 club locations in the Central Savannah River Area, 3 of which serve the Laney Walker-Harrisburg community and surrounding neighborhoods.

We are firmly committed to being an active partner in the planning process and are looking forward to engaging with the Housing Authority, the City of Augusta, other strategic partners, and the community as a whole to realize this transformational project that seeks, in part, to improve the educational, social, and emotional outcomes for youth.

In support of the grant application, Boys & Girls Clubs of the CSRA will provide the following services in support of the planning for the People component of the Laney Walker-Harrisburg Choice Neighborhoods Plan:

- I. Serve as the Co-Chair of the People Task Force.
- II. Provide bi-weekly financial management and soft-skills workforce training, for teens ages 14-18 to support the workforce readiness strategies in the Choice Neighborhoods Plan.
- III. Provide youth development opportunities through quality after school and summer programs, to include subject matter tutoring, academic enrichment in math, reading, and science, and mentoring, at 3 club locations serving the Laney Walker-Harrisburg neighborhood, to support the education strategies outlined in the Choice Neighborhoods Plan.
- IV. Provide teen mentoring opportunities focused on skill building, relationship building, career exploration, and high school graduation, at 3 club locations serving the Laney Walker-Harrisburg Neighborhood, to support the workforce readiness strategies in the Choice Neighborhoods Plan.

Boys & Girls Clubs of the CSRA welcomes the opportunity to partner with the Medical College of Georgia Foundation and the Community Foundation of the CSRA on this Choice Neighborhoods Initiative and looks forward to working together with the community in its revitalization efforts.

Sincerely,

Kim Evans, CEO

**GREAT FUTURES START HERE.**

September 8, 2020

Mr. Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the Community Foundation for the CSRA (CFCsRA) and its Board of Directors, I am pleased to provide our commitment to serve, in partnership with the MCG Foundation and the Boys & Girls Club of the CSRA, as a Planning Partner to the Augusta Housing Authority (AHA) and the City of Augusta's application for its HUD FY2020 Choice Neighborhoods Planning Grant and offer our full support to the development of a comprehensive neighborhood transformation plan for the Laney-Walker Harrisburg community.

The mission of the Community Foundation is to engage, inform, and inspire donors and nonprofits to build a stronger and more vibrant community. To that end, we are embedded in our community in ways that help convene, connect, and grow our collective impact on issues that matter to us all. It is these skills as well as our commitment to the Laney Walker and Harrisburg neighborhoods that we believe will make for a substantive and productive partnership during the transformation planning process.

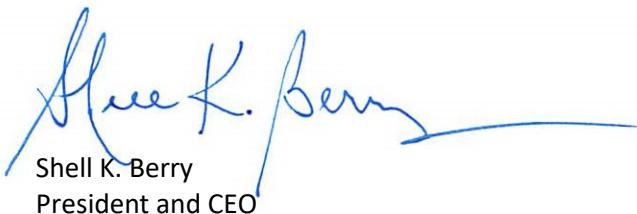

For example, in 2018, the Foundation made a commitment to addressing long-term cyclical challenges to educational achievement. Funds have been allocated to provide focused grants in Augusta's Harrisburg neighborhood for a minimum of three years. This specific initiative addresses access to effective literacy programming for all ages.

Additionally, the Community Foundation has partnered with the Medical College of Georgia Foundation and the Boys & Girls Club of the CSRA to develop and program a neighborhood community center which will be located in the heart of the planning grant's defined area for transformation. The nonprofits who will reside in the center will be focused on health, wellness, access to food, literacy, and educational support services. We are committed to providing leadership, philanthropic dollars, and staff support to this project over the development time frame (2020-2021) and beyond.

To further demonstrate our support, the Community Foundation will commit \$50,000 to the Laney-Walker Harrisburg Choice Neighborhood planning process and will serve on the Steering Committee as well as co-lead the People Task Force.

We are excited about the opportunity to invest in the transformation of the Laney Walker/Harrisburg community, and looks forward to being a catalytic partner in realizing the goals of the Choice Neighborhoods Planning Grant.

Sincerely,

A handwritten signature in blue ink that reads "Shell K. Berry".

Shell K. Berry  
President and CEO

September 8, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of Communities In Schools of Augusta Richmond County, Inc., I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker Harrisburg neighborhoods. Additionally, I would be honored to serve on the *People's subcommittee* for the duration of the planning period.

Communities In Schools is a nonprofit organization and relies on an extraordinary network of community individuals and businesses to accomplish our mission to surround students with a community of support empowering them to be successful in school and achieve in life. We believe that a viable, successful, sustainable Richmond County school system is a critical component to our community's continued growth and future workforce development. Our model of *Integrated Student Support* has proven to be an effective solution for many students and schools struggling with large numbers of low income and disadvantaged students as evidenced by the success we have seen with the students and local schools involved with our programs like Hornsby Elementary and Middle and Lamar Milledge Elementary that are located in the Harrisburg Laney Walker corridors.

The overall goal of the Communities In Schools is to remove the barriers and obstacles that keep disadvantaged kids from being successful in school or makes learning for them too difficult. Children are not immune to the stresses, issues, and instability of their families whether they outwardly react or not. Our Helping Hands program is a unique multi-faceted approach to helping children that combines tangible items that are needed by kids like clothes, food, eyeglasses, and healthcare while also providing mentoring and tutoring services to help them overcome academic deficits and problems with behavior and social interactions. Our work is geared toward disadvantaged children living in poverty homes. Our services integrate the family, the school, educators, and the community in a partnership to insure the successful education and well-being of children in our community schools.

Although, we serve fulltime in three schools and have stand-a-lone programs in four others, we are known throughout the county to be a resource for school administrators, counselors, and other agencies. Normally they reach out to us for assistance to help students and families struggling with wrap-around supports like basic needs, healthcare access, eyeglasses, food, clothing, and transportation. In the Laney Walker Harrisburg

*The mission of Communities In Schools is to surround students with a community of support, empowering them to stay in school and achieve in life.*

corridor, we support every school with some wrap-around support or programming, but our ultimate goal is to serve in all of these schools full-time as our funding allows.

The award of the Choice Neighborhood Planning grant would be such an incredible opportunity for the community to truly focus and leverage efforts on a neighborhood buckling under the blight of crime, education inequality, and poverty with the ultimate goal of creating a future for it that is safe and thriving. Communities In Schools would be thrilled to contribute what we can to a plan that would help so many while being a catalyst for meaningful change. Together, we can do amazing things!

Sincerely,

Laurie L. Cook

Executive Director

*The mission of Communities In Schools is to surround students with a community of support, empowering them to stay in school and achieve in life.*

# Augusta Economic Development

Georgia's Business Address

AUGUSTA ECONOMIC DEVELOPMENT AUTHORITY

Suite 3500, Historic Enterprise Mill, 1450 Greene Street, Augusta, GA 30901

[www.AugustaEDA.org](http://www.AugustaEDA.org)

September 3, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

I am writing to express my strong support for the Augusta Housing Authority's 2020 Choice Neighborhoods Initiative (CNI) Planning Grant for the Laney Walker Harrisburg Community. This Community has large concentrations of public housing and are amongst the poorest in the State of Georgia. As such, the Development Authority of Augusta, GA has a distinct interest in the citizens of this area and looking to find ways to encourage their participation in the workforce and to develop training programs for both adults and school-aged children to begin to improve their quality of life and marketable skills.

The City of Augusta and its nonprofit partners are making several improvements in the Harrisburg, Laney-Walker and Bethlehem Choice Neighborhoods Community and a CNI Planning Grant would leverage the existing investments. Our organization is in the final stages of an in-depth labor study of the community and will look to leverage this study to find actionable items to improve the area and give access to workforce programs to citizens specifically in this area. We have attached the "draft" full report and executive summary for your review.

The Development Authority of Augusta, GA is fully committed to explore our inclusive workforce needs as it relates to Advanced Manufacturing, Nuclear Sciences, HealthCare, Cyber Security, and other federal needs. We see a need for new programs, in-depth study, and implementation of programs to address our labor shortages. This is essential to the further improvement and growth of our communities.

The Development Authority of Augusta, GA is an innovative organization working to recruit new Retail and Commercial related businesses along with technology, cyber security, manufacturing, distribution, assembly and related industrial facilities to Augusta, Richmond County, Georgia.

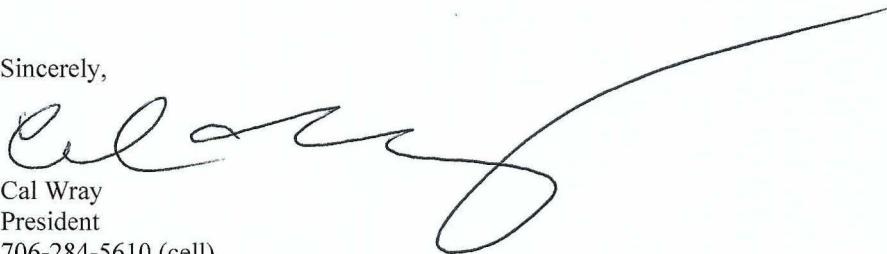

Our efforts strive to contribute to the success of the City of Augusta & Richmond County, make a positive impact on public/private ventures, serve your community by promoting new capital investment and job creation, and further new partnerships.

One of the biggest needs is to improve our workforce participation rate in our area which is especially lower in neighborhoods such as those targeted by this CNI Planning Grant. To this effort, we will firmly commit \$10,000 in funding for workforce participation planning that will target this neighborhood.

Further, we will commit staff hours, our full network, and other resources to make this effort a success, including playing a prominent role in the People/Employment Task Force during the anticipated Choice planning timeframe of 2021-2022.

Please count on our full commitment. I encourage you to give this application full and fair consideration within all applicable rules and regulations.

Sincerely,

Cal Wray  
President

 Executive Director  
 Housing Authority of the City of Augusta  
 1435 Walton Way  
 Augusta, GA 30901

Re: FY2020 Laney Walker-Harrisburg Choice Planning Grant Application

Dear Mr. Oglesby:

On behalf of the leadership, students, and faculty of Paine College, we would like to extend our full support of the Augusta Housing Authority (AHA) and City of Augusta's (City) application for a FY2020 Choice Neighborhoods planning grant, and to engage in the transformation planning process within and around the Laney Walker-Harrisburg community.

At Paine College, we emphasize academic excellence, ethical and spiritual values, and social responsibility, and commit to the personal development of our students to prepare them to be spiritually centered men and women for positions of leadership and service. Among our institutional objectives, we believe there are many that align with the goals of the *Choice Neighborhoods Initiative (CNI)*, and specifically within the Laney Walker-Harrisburg community:

- To maintain strong ties and interaction with the Augusta community regarding mutually beneficial educational and cultural goals.
- To educate students in the use of emerging technologies, problem-solving, and expanding the horizon of knowledge.
- To foster an understanding and appreciation of the Black heritage, its contribution to contemporary American culture, and its relationship with other people.
- To stimulate students to develop the spirit of inquiry and enhance their ability to think critically to be productive self-sufficient citizens.

As an institution that is both physically and relationally connected to this community, we would like to commit our resources to the planning process. Specifically, our students will volunteer to assist the AHA and the City with the

engagement of the residents of the Laney Walker-Harrisburg neighborhood during the planning process. We will also commit to be a partner to the residents of Allen Homes in determining both their needs and their desires for better housing, health, neighborhood, and education through direct interaction, data collection, and analysis. We are happy to commit a member of our leadership team to serve on the Steering Committee, as well as the Housing, People and Neighborhood task forces of the *CN* planning process. Our representative would bring to this effort the spirit and knowledge of Paine's resources and programs, and how they can be best leveraged to address the unique needs of the residents within this community.

We appreciate the opportunity to partner with you and look forward to seeing the resident-led revitalization of the Laney Walker-Harrisburg community. Best wishes with your application!

Sincerely,

Cheryl Evans Jones, Ph.D.  
President

September 2, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

As Chairman of the E3 Leadership Foundation, I am writing to express my strong support for the Augusta Housing Authority's 2020 Choice Neighborhoods Initiative (CNI) Planning Grant for the Laney Walker Harrisburg Community. The E3 Foundation was created in 2005 and we strive to build bridges to connect our community to knowledge, resources and growth opportunities. We believe it is our social responsibility to **educate, enlighten** and **empower** the community we love. Our hope is that through our continuous work, we aid in growing a thriving and more vibrant Augusta and believe that our missions run parallel.

The E3 foundation takes a two-pronged approach in achieving our mission. First, we achieve primary work through what we described as "programs and projects". Programs for us are groups of dedicated people and unique ideas, a targeted population and a simple mission. We also do "projects" which are usually carefully planned efforts that extend, support or enhance the programs and mission of E3. We do both in collaboration with other organizations that align with our mission, values, and goals. We provide administrative services, funding, and professional services to organizations who we collaborate with.

More specifically, we currently have our Talented Tenth program working on a project that addresses many of the action activities described in the CNI Planning Grant. The project is called "Augusta's Agenda". Augusta's Agenda was created as a project to examine ways to improve the socio-economic status of those in the most need by creating an agenda that can be used to lead our community and improve Augusta. Community leaders were asked, "What do you think are the biggest problems facing our local community?" which resulted in an initial list of concerns. The list was tweaked, massaged, adjusted and eventually evolved into subject matter that serves as the basis for the primary topics of the project and the basis for our agenda. The final list includes topics like, poverty, economic development, gentrification, neighborhood revitalization and affordable housing just to name a few. Talented Tenth participants have been asked to author a narrative that explains, creates awareness, makes recommendations and in some instances offers solutions to their identified topic.

We also have a youth program, Project IMPACT that we feel may be beneficial to the families in the community. Project IMPACT is a twice a month program for 50 high school males during the academic school year. Students are provided both breakfast and lunch along with a program shirt and there is no cost to students in the program. Project Impact students, many who live in the targeted area, collectively receive over 800 hours each month of direct advisor and support contact including, regularly scheduled sessions, multiple field trips, weekly counseling with a psychotherapist, private tutoring with certified teachers, group tutoring and social programming.

The Harrisburg, Laney-Walker and Bethlehem Choice Neighborhoods Community project has enormous potential for transforming the area. The E3 Leadership Foundation would be honored to be involved in this transformation and we look forward to possibly working with you and the Augusta Housing Authority.

Sincerely,

Steven B. Kendrick,  
E3 Leadership Foundation, Chairman

# GOOD NEIGHBOR MINISTRIES

September 8, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

As Chairman of the Board Of Directors of Good Neighbor Ministries, Inc, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker Harrisburg neighborhoods. Additionally, I am pleased to serve on the Neighborhood subcommittee for the duration of the planning period.

Good Neighbor Ministries (GNM) was established in 2008 with a mission to "Strengthen Harrisburg by Loving Our Neighbors". Using Saint Luke United Methodist Church as our headquarters, we have sponsored Kids With A Future Program for 8 years. This after school program was for Harrisburg children to provide a safe place to learn and play and be loved. This program changed into Boys with a Future in 2019 when it became obvious that middle school and high school boys were in crisis. 2020 has made that need even more dramatic. GNM has sponsored children to attend private schools, payed school fees, bought clothing and arranged transportation. The support GNM has given to the residents of Harrisburg has been deep and varied.

Good Neighbor Ministries stands in the gap for many Harrisburg adults who are in desperate situations. Many Harrisburg residents live in abject poverty with few safety nets.

To demonstrate GNM's commitment to the Harrisburg community, it has purchased three lots in Harrisburg. It was the founder of Veggie Park Food Market and continues to support it financially.

The Board and I look forward to working with Housing Authority of the City of Augusta and members of the Laney Walker and Harrisburg communities every step of the way in planning for the transformation of these historic areas of Augusta.

Sincerely,

Gloria W. Norwood  
Good Neighbor Ministries Board Chair

September 6, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the Greater Augusta Arts Council, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker and Harrisburg neighborhoods. Additionally, I am pleased to serve on the Neighborhood committee for the duration of the planning period.

The mission of the Greater Augusta Arts Council is to enrich the quality of life for citizens and visitors in the Augusta River Region by advancing vibrant cultural arts. As the public art agency for the City of Augusta, we facilitate the flourishing of art in public spaces throughout the Augusta area.

The public art projects we facilitate and fund are selected to follow the City's Public Art Master Plan, which was adopted in May 2017. The Arts Council is guided in this work by the Public Art Advisory Panel, a team of seven Richmond County residents with a passion for the arts, assisted by Arts Council Board members and staff, and leadership from City of Augusta Departments, including Recreation & Parks, Traffic Engineering, Planning & Development, and the Augusta Georgia Land Bank Authority.

We have focused many of our public art projects on the geographical area outlined in the Housing Authority's Choice Neighborhood Planning grant application. Our reasons for focusing on this area include a stated need for community expression by residents and groups working there, property controllers who are supportive of public art, and a multitude of public and private entities who will readily partner with us to make positive change happen in those areas.

What we have found is that the more art we place in public spaces, the more people imagine can happen in those places and everywhere. We are getting calls from other private developers seeking to make their locations speak to the public through murals and sculptures on their sites, including the newly rebranded Downtowner apartments, which are within the geographic area of the Choice Neighborhood Planning grant map. We have a Georgia Council for the Arts grant to create art on storm drains in the highest foot traffic areas of Downtown. *It All Flows Into the Savannah* will launch in 2021 with matching funds from Augusta's Traffic Engineering Department. We are advocating heavily for multiple public art projects in the Richmond County SPLOST 8 budget.

We would be honored, excited, and more than capable of bringing locally envisioned public art projects of the highest caliber to the transformational work that the Housing Authority of Augusta is planning.

Sincerely,

  
Brenda Durant  
Executive Director

*Harrisburg Family Health Care*  
423 Crawford Ave.  
Augusta, GA. 30904  
706.496.3885

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA. 30901

Dear Mr. Oglesby,

On behalf of Harrisburg Family Health Care, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker Harrisburg neighborhoods. Additionally, I am pleased to serve on the Neighborhood subcommittee for the duration of the planning period.

The mission of Harrisburg Family Health Care is to provide free quality health care and educational opportunities to the under-insured and uninsured residents of the Central Savannah River Area. Currently, we provide free medical care to approximately 3,000 CSRA residents. We are open three days a week and have an MOU with the Medical College of Georgia to provide a practice site for Family Practice Residency Program two days a week.

Harrisburg Family Health Care was the clinical site for Wholesome Wave's Fruit & Veggie Southeastern U.S. Pilot Program and for the past six years we have continued to partner with Augusta Locally Grown to implement the Fruit & Veggie Rx Program. This very successful program increases access and affordability of healthy food and provides a practical framework for patients who have either heart disease, diabetes or are obese to improve their health. Participants are required to be seen on a monthly basis at HFHC, attend monthly healthy cooking classes and shop weekly (during Market Season) at our Veggie Park Farmer's Market, which is located in the Harrisburg neighborhood.

Additionally, Harrisburg Family Health Care provides a free monthly Women's Wellness Clinic, a Bi-Annual Eye Care Clinic. In 2021 we will provide at least two Pop-up Health Screenings for Lamar Milledge Elementary School and one Pop-Up Health Screening for the residents of Lake Olmstead Homes (located in the Harrisburg neighborhood). Additionally, we are a practice site for a LCSW who works with Spanish speaking families.

We estimate that over the past ten years Harrisburg Family Health Care has invested \$1,000,000.00 in our community to provide Primary Health Care for adults. For 10 years volunteer Physicians have provided over 7,000 volunteer hours of free care and a Nurse Practitioner has provided 2,400 plus hours of free care within the past four years.

This coming year Harrisburg Family Health Care, through its MOU with the Family Practice Residency Program at MCG, will begin developing and implementing a Pediatric/Adolescent Health Initiative. The program will begin by targeting elementary aged children who attend Lamar Milledge Elementary School, Westabou Montessori School and Toddler Thyme Child Care both housed at St. Luke UMC. Our goal is to provide excellent Family Medical Care to low-income families living in the CSRA.

Since 2010 Harrisburg Family Health Care has invested in and cared for our community through a holistic approach to health care. We are delighted and encouraged to be part of the creative group of individuals and agencies working to improve the health and wellness of our community.

Sincerely,

Marsha Jones  
Chairperson, Harrisburg Family Health Care Board of Directors  
423 Crawford Ave.  
Augusta, GA. 30904

**Executive Director**  
**Housing Authority of the City of Augusta**  
**1435 Walton Way**  
**Augusta, GA 30901**

**Dear Jake,**

On behalf of Historic Augusta, Inc., I am pleased to learn that the Housing Authority of the City of Augusta will be applying for the FY2020 Choice Neighborhoods Planning grant. I understand the goal is to develop a comprehensive plan for the transformation of the Laney Walker and Harrisburg neighborhoods. I will be happy to serve on the neighborhood committee for the duration of the planning period.

The mission of Historic Augusta is to preserve historic sites and structures in Augusta and Richmond County. We provide technical assistance to public and private property owners that seek to preserve residential, commercial, and institutional properties of historic significance as well as historic neighborhoods. One of our current projects is the preservation of the home of the Rev. C. T. Walker at 1011 Laney-Walker Boulevard. It was in honor of the Rev. Walker that both the street and the neighborhood were renamed in the 20<sup>th</sup> Century, along with educator Lucy Craft Laney.

In reviewing the map of the proposed study area, designated National Register historic districts that are included are Laney-Walker North, Augusta Downtown, Harrisburg-West End, and the Augusta Canal Industrial District. Much of Downtown is also a locally designated historic district, and the canal is both a National Historic Landmark District, and a National Heritage Area. We can assist in utilizing these designations in ways that could be useful in planning for the improvement of the target area.

I look forward to meaningful participation during the planning process.. Please let me know if I can assist in any way.

**Sincerely,**

**Erick D. Montgomery**  
**Executive Director**

Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the Lucy Craft Laney Museum of Black History, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning Grant to develop a comprehensive plan for the transformation of the Laney Walker, Harrisburg neighborhoods. Additionally, we are pleased to serve on the Neighborhood subcommittee for the duration of the planning period.

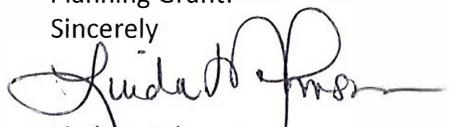

The mission of the Lucy Craft Laney Museum of Black History is to promote the legacy of Ms. Lucy Craft Laney through art, history, and the preservation of her home.

The Lucy Craft Laney Museum enjoys a strong working relationship within the Laney Walker District with the Laney Walker Neighborhood Association, The Lucy Craft Laney Comprehensive High School, Tabernacle Baptist Church, A.R. Johnson Magnet School, and the Augusta Partnership for Children, and provides enrichment and outreach programs such as summer and fall camps, exhibits, educational & cultural field trips for children and adults, monthly senior luncheons and other special events.

We are pleased to report that the Lucy Craft Laney Museum plans to undertake several projects during the grant period that we hope will further leverage your efforts to re-invigorate the Laney Walker District. We plan to hold our Lucy Craft Laney Museum Children's Academy programs, which supports state mandated curriculum, senior programs, health fairs, and other outreach programs that benefit this community. We are also working on public arts projects in partnership with the Greater Arts Council and Housing and Community Development.

We look forward to working with the Housing Authority of the City of Augusta and would be honored to be involved in the planning for the FY2020 Choice Neighborhood Planning Grant.

Sincerely

Linda F. Johnson  
Executive Director

Re: Support of the Laney Walker-Harrisburg Choice Neighborhood Planning Grant

Dear Mr. Oglesby:

The Medical College of Georgia (MCG) Foundation is pleased to partner with the Community Foundation of the Central Savannah River Area (CFCsRA) and the Boys & Girls Club of the Central Savannah River Area (BGC) to serve as Planning Partner for the Augusta Housing Authority (AHA) and the City of Augusta's HUD FY2020 Choice Neighborhoods (CN) Planning Grant application, and to offer our full support to the development of a comprehensive neighborhood transformation plan for the Laney Walker-Harrisburg community. We are also excited to participate as a member of the Steering Committee and serve as a part of the Neighborhood Task Force.

The Foundation, whose mission is to improve the quality of life of the people of Georgia, the nation, and the world by supporting the advancement of education, research, and patient care at the Medical College of Georgia, believes this mission begins within the community. This belief has been greatly enriched over the past many months through our recent partnerships with the Housing Authority, the City of Augusta, our Community Foundation, the Boys & Girls Club, and the many friends and residents from the Laney Walker-Harrisburg community.

To further demonstrate our support, the MCG Foundation and its Board of Directors commit \$105,000 to the Laney Walker-Harrisburg Choice Neighborhood planning process.

We also believe that the MCG Foundation's own redevelopment project, which includes approximately 55 acres at the direct center of the Laney Walker-Harrisburg community, will greatly benefit the neighborhood revitalization. This project, which includes both public and private investment, brings many of the amenities our neighborhood needs.

As a part of the first phase of this development plan, the MCGF will construct two brand new community assets that will ground the commercial development in community. As you know and to accomplish this, the MCGF has partnered with the Community Foundation of the Central Savannah River Area (CFCRSA) and the Boys & Girls Club of the CSRA (B&GC), and we collectively expect to deliver the roughly \$12 million assets – a Community Center and Boys & Girls Club to the neighborhood and its many supporting organizations at no cost to them.

Additionally, the MCGF has partnered with the Augusta Land Bank Authority and the Economic Development Authority to deliver as a part of its retail development, a new, neighborhood-scale grocery store to this site in collaboration with the community, neighborhood residents, and the Housing Authority. We envision a partnership with the Community Center – and specifically with Augusta Locally Grown – that delivers high quality, fresh, and healthy foods to the Laney Walker/Harrisburg neighborhood.

We are proud to be a part of this tremendous effort and look forward to seeing this transformation to its completion.

Yours most sincerely,

Ian Mercier  
President & CEO  
Medical College of Georgia Foundation, Inc.  
Vice President for University Foundations

Re: HUD FY2020 Choice Neighborhoods Planning Grant Application for  
Laney-Walker Harrisburg Communities

Dear Mr. Oglesby:

The joint venture team of Pennrose, LLC and BLOC Global Development Group, collectively Pennrose-BLOC, LLC (Pennrose-BLOC), is thrilled to submit this commitment of funding leverage to the Augusta Housing Authority (AHA) to support the Choice Neighborhoods Planning Grant and the redevelopment of Laney-Walker Harrisburg Communities.

As you know, Pennrose-BLOC has been involved in other Choice Planning and Implementation Grants, and our team has served as Housing Implementation Entity for many of those projects. As part of the overall community planning effort, Pennrose-BLOC is planning to develop nearly 8.5 acres of land in this community along Chafee Avenue. The development would provide about 200 new senior apartments in the community.

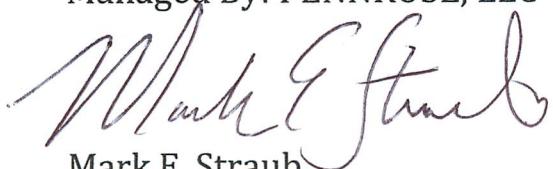

This letter is provided to demonstrate our firm commitment and funding support to this project. Pennrose-BLOC commits to \$40,000 to the Laney-Walker Harrisburg Choice Neighborhood redevelopment effort. This funding will provide for preliminary planning and predevelopment activities including schematic design, geotechnical studies, environmental studies, and market analysis. This predevelopment activity will begin and be accomplished over the next two years concurrent with the Choice Neighborhoods planning activities.

We are looking forward to working with AHA to redevelop the Laney-Walker  
Harrisburg Communities.

Sincerely,

PENNROSE-BLOC, LLC

Re: HUD Choice Neighborhoods Grant

Dear President Mercier:

The Richmond County School System supports the Medical College of Georgia Foundation's application for a FY2021 Choice Neighborhoods Planning and Action grant to develop a comprehensive plan for the transformation of the Harrisburg and Laney-Walker communities. The Richmond County School System will work with the Medical College of Georgia Foundation, the Community Foundation, the Boys and Girls Club, the City of Augusta, and the Augusta Housing Authority to develop a strategy that will improve the educational outcomes for children living in those areas and served by our local schools, including increasing the number of children that enter kindergarten ready to learn; are proficient in core academic subjects; and graduate from high school, college and career ready.

The mission of the Richmond County School System is to build a globally competitive school system that educates the whole child through teaching, learning, collaboration, and innovation. This collaboration will certainly enable us to better serve a large portion of our 32,000+ students and to improve the learning culture in the Harrisburg and Laney-Walker communities. We are one of the larger school systems in Georgia and serve a diverse population. Of the students we serve in our 56 schools, 75% are African American, 5% are Hispanic, and 16% are white. Currently 49% of our students qualify as economically disadvantaged and 12% are students with disabilities.

Richmond County School System has a strong working relationship with all of our community partners, most recently in the Community Foundation's literacy program. To that end, Richmond County Schools appoints Nathan Benedict, Assistant Superintendent of Administrative Services to serve on the Steering Committee for the Choice Neighborhoods planning process, and Principal Shetina Roulhac (Lamar-Milledge Elementary) and Principal Dr. Marquez Hall (Laney High School) to be active participants in the education task force. This grant will uplift the Harrisburg and Laney-Walker communities and support our schools and the broader community by improving the quality of life in those neighborhoods.

We look forward to working with Medical College of Georgia Foundation, the Community Foundation, the Boys and Girls Club, the City of Augusta, and the Augusta Housing Authority in planning for the transformation of this important historical area of Augusta.

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith Bradshaw".

Subject: FY2020 Laney Walker-Harrisburg Choice Planning Grant Application

Dear Mr. Oglesby:

On behalf of Tabernacle Baptist Church, I fully support the Augusta Housing Authority (AHA) and City of Augusta's (City) application for a FY2020 Choice Neighborhoods Planning grant to develop a comprehensive plan for the transformation of the Laney Walker-Harrisburg neighborhood. We are pleased and willing to serve on the Steering Committee and the Neighborhood Task force for the duration of the grant period.

Our mission is to I.M.P.A.C.T. (Intersecting Maturing People and Christ Together) the body of Christ through Innovation, Ministry, Passion, Attracting, Consistency and Teaching. Our church has a rich history of serving our community, and we have always prided ourselves in ministry excellence and community growth. Making a positive impact with the "least of these" has been at the heart of this ministry since its earliest existence – beginning with the work of founding Pastor C.T. Walker on behalf of his African American brothers and sisters starting in the late 1800s.

Reverend C.T. Walker, was born into chattel slavery in 1858 on a plantation about fourteen miles outside of Augusta in Hephzibah, GA. For the first seven years of his life he would wear the cold chains of enslavement to finally be freed at the final shot fired in the American Civil War. As a young free man, Walker moved to Augusta to study divinity at the Augusta Institute (now Morehouse College), receiving his ordination and establishing Tabernacle Church in 1885. Although he received appointments by U.S. Presidents, hosted John Rockefeller, William Howard Taft at Tabernacle, and welcomed Booker T. Washington and George Washington Carver at the Walker Baptist Institute, he made his home in the heart of the Laney Walker-Bethlehem neighborhood – living at 1101 Gwinnett Street (now Laney Walker Blvd) until his death in 1921.

On 21<sup>st</sup> of May 1882, Rev. Walker delivered the annual address before the Atlanta Baptist and Spelman Seminary on the needs and responsibilities of the African American Race. It was an effort that has significant meaning to this day. In opening, Rev. Walker said: "When our minds like the swiftly passing scene of a panorama take a retrospective view of the past history of our race, and when we remember

that for over two centuries, ignorance, the mother of bigotry and superstition, the bane of society, the prolific mother of weakness, held our people with its slavish chains, we must admit that many of our people have made commendable progress, and that the influence of religion morality and intelligence is increasingly felt." In his address, Rev. Walker addressed poverty, when he pleaded for his fellow man, "don't ignore him on account of his poverty, he has no rich ancestors to bequeath him landed estates." And admonishing government's supporting role, Walker added that "a bright day is dawning – citizens of every rank and section of this country are uniting hand in hand to advocate such legislation as to remove illiteracy...and making appropriations for public education."

We believe that the great work you have started here, with this program, aligns with the heart of what Rev. Walker wished to express to that congregation in 1882, and what we live and believe today – that we can be better together. The Choice Neighborhoods program, with its focus on people, neighborhood, and housing, addresses the most vital and core pieces of any community, and we will serve side-by-side with you and this community family desiring to serve the residents of this important neighborhood.

Most sincerely,

Rev. Dr. Charles E. Goodman, Jr.  
Pastor/Teacher, Tabernacle Baptist Church

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

Turn Back the Block supports the Augusta Housing Authority's and the City of Augusta's co-application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker-Harrisburg neighborhoods. Additionally, we are pleased to serve on the Housing subcommittee during the planning period.

Turn Back the Block is a faith-based nonprofit organization whose mission is to revitalize the Harrisburg neighborhood through housing rehabilitation, new construction, and the promotion of homeownership therein. We recognized that change would occur on a house by house, block by block basis, and only with the strong support of this community. However, there is a vacancy and abandonment rate of 22% and less than 20% of the homes are owner-occupied. Given this, creating home ownership opportunities as an axis for community transition is difficult at best. A major impact project is needed to return the Harrisburg community to the once -thriving place to live, shop, worship, and learn. We believe that the collaborative effort of the Choice Neighborhood Planning Grant will further our mission to revitalize Harrisburg.

We would be honored to serve on the Housing Task Force and Steering Committee.

If there is any additional information that we can provide to support this application, please do not hesitate to contact us.

Sincerely,  
Ashley Brown  
Executive Director

RE: 2020 Choice Neighborhoods Planning Grant

**The Housing Authority of the City of Augusta, Georgia's Annual Plan is currently being revised to include the following language:**

AHA intends to co-apply with the City of Augusta, Georgia for Choice Neighborhoods grant funding in 2020 to assist with developing and/or implementing a redevelopment program for one or more AHA sites, including 149 public housing units at Allen Homes and the sites' surrounding neighborhoods. Funding awarded via a Choice Neighborhoods Planning - or Planning and Action – Grant would support the development of a comprehensive neighborhood transformation plan for the targeted site and neighborhood, and a Choice Neighborhoods Implementation Grant would assist with the implementation of that transformation plan for the targeted site and neighborhood.

Subject: Laney Walker Neighborhood    Urban Redevelopment Area (URA) Designation

Dear Mr. Oglesby:

Like many communities around the country, the Laney Walker neighborhood has experienced decades of disinvestment, significant number of vacant and abandoned properties, unstable habitable conditions, and declining values for those properties still occupied. These elements, as you know, often discourage private investment that might be used as leverage to revitalize distressed areas. By the early 2000s, the area, which covers over 1,100 acres and includes over 3,500 parcels, saw 33 percent of its north-side housing in poor to dilapidated condition, and over 70 percent of its southern housing in the same condition to the south. Over 25 percent of these homes were vacant.

Thus, Augusta, GA, realizing that previous plans and interventions had not been enough to address these problems and reverse the neighborhood decline, engaged in a transformative revitalization effort (2008) focused on transforming this historic neighborhood back into a thriving community; strategically centered around a Community Economic Development Philosophy (housing, small business development/retention, healthy support services, & job creation) formally known as the Laney Walker/Bethlehem Revitalization Project.

Therefore, as process, the Augusta, GA Commission voted (April 1, 2010) to activate the Urban Redevelopment Agency (of Augusta) to transact business and exercise powers under the provisions of the Urban Redevelopment Law by resolution. Also on the same day (April 1, 2010), the Augusta, GA Commission voted to approve the Laney Walker/Bethlehem Urban Redevelopment Plan (by resolution) focused on utilizing appropriate private and public resources to eliminate and prevent the development or spread of slums, to encourage needed urban rehabilitation, and to provide for the development of slum areas. Also in support of said revitalization efforts, the Laney Walker Enterprise Zone was first amended (September 10, 2009) to compliment said revitalization efforts and serve as a recruiting tool in the recruitment/solicitation of business and service enterprises.

**Laney Walker Neighborhood  
Urban Redevelopment Area Designation**  
**Attn: Jacob Ogleby**  
**September 11, 2020**

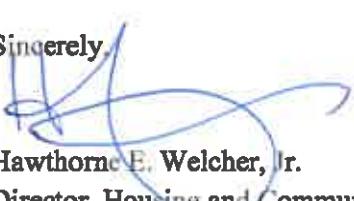

Our Redevelopment Plan efforts included community engagement, or twenty-four months of discussion with residents about their vision for the community, and followed by quarterly meetings that continue up to the present day. The principal goals identified through these sessions and following key inputs from residents that shape the Laney Walker master plan includes:

- Providing new affordable/workforce single-family housing for home ownership/rental on vacant lots;
- Eliminating blight and abandonment;
- Creating rental housing for senior citizens/low-moderate residents;
- Supporting the rehabilitation/historic restoration of vacant houses;
- Creating more green space;
- Creating neighborhood retail and job opportunities;
- Celebrating the neighborhood's culture and African American heritage.

The urban redevelopment area (URA) designation is an excellent tool that allows Augusta, GA to strategically direct limited resources to communities that can see the greatest impact while creating the greatest opportunity to leverage additional public and private investment. Our experiences working this plan over the past several years also provides a great framework from which future transformation plans can flow. The Augusta Housing Authority and Augusta, GA's application for a Choice Neighborhood Planning Grant perfectly aligns with the spirit of the URA process, and we are excited to potentially integrate the plans into another.

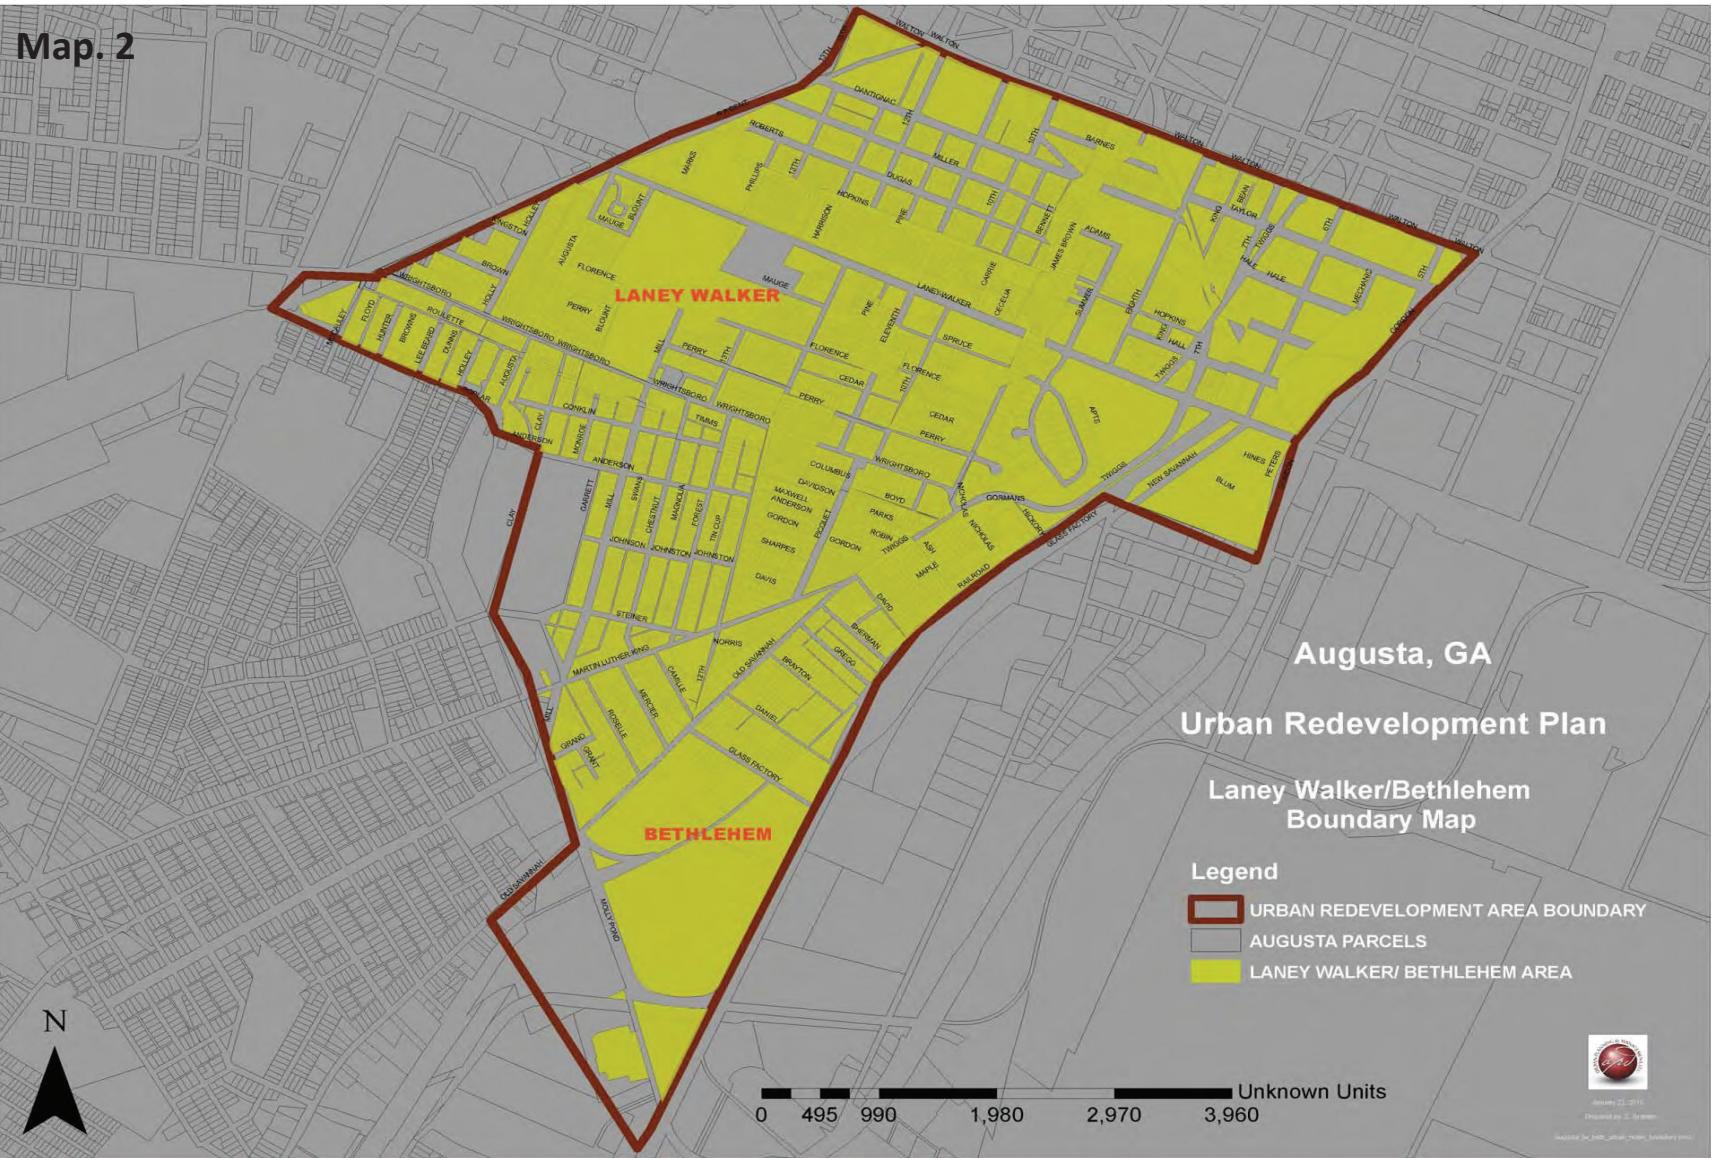

We look forward to the tremendous opportunities awaiting this community and our City and look forward to replicating our past successes on a much larger scale through the Choice Neighborhood transformation process.

Sincerely,

Hawthorne E. Welcher, Jr.  
Director, Housing and Community Development

**STATE OF GEORGIA  
AUGUSTA-RICHMOND COUNTY**

**RESOLUTION**

**RESOLUTION DESIGNATING URBAN REDEVELOPMENT AREA**

**WHEREAS**, Chapter 61 of Title 36 of the Official Code of Georgia Annotated, entitled the "Urban Redevelopment Law," as amended (the "Urban Redevelopment Law"), authorizes Augusta, Georgia (sometimes referred to herein as "Augusta") to designate an "urban redevelopment area," which is defined to mean a "slum area" which the Board of Commissioners of Augusta, Georgia designates as appropriate for an urban redevelopment project; and

**WHEREAS**, the Urban Redevelopment Law defines "slum area" to mean an area which by reason of the presence of a substantial number of slum, deteriorated, or deteriorating structures; predominance of defective or inadequate street layout; faulty lot layout in relation to size, adequacy, accessibility, or usefulness; unsanitary or unsafe conditions; deterioration of site or other improvements; tax or special assessment delinquency exceeding the fair value of the land; the existence of conditions which endanger life or property by fire and other causes; by having development impaired by airport or transportation noise or by other environmental hazards; or any combination of such factors substantially impairs or arrests the sound growth of Augusta, retards the provisions of housing accommodations, or constitutes an economic or social liability and is a menace to the public health, safety, morals, or welfare in its present condition and use; and

**WHEREAS**, after careful study and investigation, Augusta desires to designate the area described in Exhibit A attached to this resolution as an urban redevelopment area;

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Commissioners of Augusta, Georgia that the area described in Exhibit A attached to this resolution is hereby determined to be a "slum area," by reason of the presence of a substantial number of deteriorating structures, predominance of defective or inadequate street layout and deterioration of site or other improvements, which substantially impairs or arrests the sound growth of Augusta or constitutes an economic or social liability and is a menace to the public health, safety, morals, or welfare in its present condition and use, and that such area is therefore designated as appropriate for an urban redevelopment project.

**BE IT FURTHER RESOLVED** that any and all resolutions in conflict with this resolution be and the same are hereby repealed.

PASSED, ADOPTED, SIGNED, APPROVED, AND EFFECTIVE this 16 day  
of March, 2010.

AUGUSTA, GEORGIA

Re: HUD Choice Neighborhoods Grant

Dear President Mercier:

The Richmond County School System supports the Medical College of Georgia Foundation's application for a FY2021 Choice Neighborhoods Planning and Action grant to develop a comprehensive plan for the transformation of the Harrisburg and Laney-Walker communities. The Richmond County School System will work with the Medical College of Georgia Foundation, the Community Foundation, the Boys and Girls Club, the City of Augusta, and the Augusta Housing Authority to develop a strategy that will improve the educational outcomes for children living in those areas and served by our local schools, including increasing the number of children that enter kindergarten ready to learn; are proficient in core academic subjects; and graduate from high school, college and career ready.

The mission of the Richmond County School System is to build a globally competitive school system that educates the whole child through teaching, learning, collaboration, and innovation. This collaboration will certainly enable us to better serve a large portion of our 32,000+ students and to improve the learning culture in the Harrisburg and Laney-Walker communities. We are one of the larger school systems in Georgia and serve a diverse population. Of the students we serve in our 56 schools, 75% are African American, 5% are Hispanic, and 16% are white. Currently 49% of our students qualify as economically disadvantaged and 12% are students with disabilities.

Richmond County School System has a strong working relationship with all of our community partners, most recently in the Community Foundation's literacy program. To that end, Richmond County Schools appoints Nathan Benedict, Assistant Superintendent of Administrative Services to serve on the Steering Committee for the Choice Neighborhoods planning process, and Principal Shetina Roulhac (Lamar-Milledge Elementary) and Principal Dr. Marquez Hall (Laney High School) to be active participants in the education task force. This grant will uplift the Harrisburg and Laney-Walker communities and support our schools and the broader community by improving the quality of life in those neighborhoods.

We look forward to working with Medical College of Georgia Foundation, the Community Foundation, the Boys and Girls Club, the City of Augusta, and the Augusta Housing Authority in planning for the transformation of this important historical area of Augusta.

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith Bradshaw".

Mr. Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the membership and employees of Augusta National Golf Club, I write to you today to express our full support for the Augusta Housing Authority and the City of Augusta's application for a Choice Neighborhoods Planning Grant.

Central to the mission of Augusta National is our responsibility to serve this community, which has so generously and consistently supported us for decades. We are, therefore, honored to join our longtime partners at the Community Foundation for the CSRA, among others, in pursuing this generational opportunity to transform the Laney-Walker Harrisburg neighborhood.

As an expression of our support, Augusta National will match the Community Foundation's commitment of \$50,000, to be directed exclusively to the planning for this important initiative.

We welcome this opportunity to improve and enrich the city we proudly call home, and we look forward to assisting in the success of this exciting project. Thank you for your thoughtful consideration of this application and your efforts to make Augusta a better place to live for everyone.

Sincerely,

Fred S. Ridley  
Chairman

September 8, 2020

Mr. Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of the Community Foundation for the CSRA (CFCsRA) and its Board of Directors, I am pleased to provide our commitment to serve, in partnership with the MCG Foundation and the Boys & Girls Club of the CSRA, as a Planning Partner to the Augusta Housing Authority (AHA) and the City of Augusta's application for its HUD FY2020 Choice Neighborhoods Planning Grant and offer our full support to the development of a comprehensive neighborhood transformation plan for the Laney-Walker Harrisburg community.

The mission of the Community Foundation is to engage, inform, and inspire donors and nonprofits to build a stronger and more vibrant community. To that end, we are embedded in our community in ways that help convene, connect, and grow our collective impact on issues that matter to us all. It is these skills as well as our commitment to the Laney Walker and Harrisburg neighborhoods that we believe will make for a substantive and productive partnership during the transformation planning process.

For example, in 2018, the Foundation made a commitment to addressing long-term cyclical challenges to educational achievement. Funds have been allocated to provide focused grants in Augusta's Harrisburg neighborhood for a minimum of three years. This specific initiative addresses access to effective literacy programming for all ages.

Additionally, the Community Foundation has partnered with the Medical College of Georgia Foundation and the Boys & Girls Club of the CSRA to develop and program a neighborhood community center which will be located in the heart of the planning grant's defined area for transformation. The nonprofits who will reside in the center will be focused on health, wellness, access to food, literacy, and educational support services. We are committed to providing leadership, philanthropic dollars, and staff support to this project over the development time frame (2020-2021) and beyond.

To further demonstrate our support, the Community Foundation will commit \$50,000 to the Laney-Walker Harrisburg Choice Neighborhood planning process and will serve on the Steering Committee as well as co-lead the People Task Force.

We are excited about the opportunity to invest in the transformation of the Laney Walker/Harrisburg community, and looks forward to being a catalytic partner in realizing the goals of the Choice Neighborhoods Planning Grant.

Sincerely,

A handwritten signature in blue ink that reads "Shell K. Berry".

**Re: Support of the Laney Walker-Harrisburg Choice Neighborhood Planning Grant**

Dear Mr. Oglesby:

The Medical College of Georgia (MCG) Foundation is pleased to partner with the Community Foundation of the Central Savannah River Area (CFCsRA) and the Boys & Girls Club of the Central Savannah River Area (BGC) to serve as Planning Partner for the Augusta Housing Authority (AHA) and the City of Augusta's HUD FY2020 Choice Neighborhoods (CN) Planning Grant application, and to offer our full support to the development of a comprehensive neighborhood transformation plan for the Laney Walker-Harrisburg community. We are also excited to participate as a member of the Steering Committee and serve as a part of the Neighborhood Task Force.

The Foundation, whose mission is to improve the quality of life of the people of Georgia, the nation, and the world by supporting the advancement of education, research, and patient care at the Medical College of Georgia, believes this mission begins within the community. This belief has been greatly enriched over the past many months through our recent partnerships with the Housing Authority, the City of Augusta, our Community Foundation, the Boys & Girls Club, and the many friends and residents from the Laney Walker-Harrisburg community.

To further demonstrate our support, the MCG Foundation and its Board of Directors commit \$105,000 to the Laney Walker-Harrisburg Choice Neighborhood planning process.

We also believe that the MCG Foundation's own redevelopment project, which includes approximately 55 acres at the direct center of the Laney Walker-Harrisburg community, will greatly benefit the neighborhood revitalization. This project, which includes both public and private investment, brings many of the amenities our neighborhood needs.

As a part of the first phase of this development plan, the MCGF will construct two brand new community assets that will ground the commercial development in community. As you know and to accomplish this, the MCGF has partnered with the Community Foundation of the Central Savannah River Area (CFCRSA) and the Boys & Girls Club of the CSRA (B&GC), and we collectively expect to deliver the roughly \$12 million assets – a Community Center and Boys & Girls Club to the neighborhood and its many supporting organizations at no cost to them.

Additionally, the MCGF has partnered with the Augusta Land Bank Authority and the Economic Development Authority to deliver as a part of its retail development, a new, neighborhood-scale grocery store to this site in collaboration with the community, neighborhood residents, and the Housing Authority. We envision a partnership with the Community Center – and specifically with Augusta Locally Grown – that delivers high quality, fresh, and healthy foods to the Laney Walker/Harrisburg neighborhood.

We are proud to be a part of this tremendous effort and look forward to seeing this transformation to its completion.

Yours most sincerely,

Ian Mercier

Re: HUD FY2020 Choice Neighborhoods Planning Grant Application for  
Laney-Walker Harrisburg Communities

Dear Mr. Oglesby:

The joint venture team of Pennrose, LLC and BLOC Global Development Group, collectively Pennrose-BLOC, LLC (Pennrose-BLOC), is thrilled to submit this commitment of funding leverage to the Augusta Housing Authority (AHA) to support the Choice Neighborhoods Planning Grant and the redevelopment of Laney-Walker Harrisburg Communities.

As you know, Pennrose-BLOC has been involved in other Choice Planning and Implementation Grants, and our team has served as Housing Implementation Entity for many of those projects. As part of the overall community planning effort, Pennrose-BLOC is planning to develop nearly 8.5 acres of land in this community along Chafee Avenue. The development would provide about 200 new senior apartments in the community.

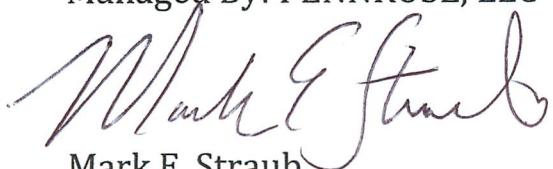

This letter is provided to demonstrate our firm commitment and funding support to this project. Pennrose-BLOC commits to \$40,000 to the Laney-Walker Harrisburg Choice Neighborhood redevelopment effort. This funding will provide for preliminary planning and predevelopment activities including schematic design, geotechnical studies, environmental studies, and market analysis. This predevelopment activity will begin and be accomplished over the next two years concurrent with the Choice Neighborhoods planning activities.

We are looking forward to working with AHA to redevelop the Laney-Walker  
Harrisburg Communities.

Sincerely,

PENNROSE-BLOC, LLC

FAX: 706-722-9102  
[www.augustatomorrow.org](http://www.augustatomorrow.org)

Dear Mr. Oglesby,

On behalf of Augusta Tomorrow, Inc., we fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Harrisburg and Laney Walker neighborhoods. Additionally, we are pleased to serve on the Steering Committee as well as the Downtown Neighborhood Task Force subcommittee during the planning period.

Since the early 1980s, Augusta Tomorrow has steadily planned and promoted economic development in downtown Augusta, and has been at the forefront of master planning efforts aimed at Augusta's urban core. As a non-profit consortium of local business leaders, our organization in conjunction with the City of Augusta funded and oversaw a 20-year urban area master plan that was completed in 2008 linking Augusta's downtown historic neighborhoods to the Savannah River. After a year of planning in 2009, a second 20-25 year master plan spearheaded by Augusta Tomorrow was endorsed by the Augusta Commission. This current plan links Augusta to neighboring North Augusta, SC, and thoughtfully proposes ideas to elevate all areas of the urban core including the Laney Walker and Harrisburg neighborhoods.

A previous project of interest within the grant's catchment area includes Springfield Village Park, which celebrates the legacy and aspirations of the oldest African American congregation in the United States and the community from which it sprang. Through private investment as well as SPLOST funding, Augusta Tomorrow and the Springfield Village Foundation constructed the park, a reflecting pool, interpretive plaques, and a 45-foot stainless steel sculpture by Richard Hunt to highlight the park. Fortunately, the beautiful park is well kept and serves as a city attraction to celebrate the church's legacy while also showcasing a successful public-private partnership at work.

Augusta Tomorrow, Inc. will commit to supporting the Choice Neighborhood Grant through its service on the above committees, as well as through in-kind support, with a value of \$50,000 during the planning process in 2021 and 2022 through the following:

- With the City of Augusta and housing departments, convening meetings of interested parties at regular intervals to keep the Master Plan projects on track to be executed, particularly in *The Westobou Vision* area in the Central Downtown Core, from 15th Street to 5th Street, and to the Savannah River.
- Assisting the City of Augusta and Steering Committee in forging contacts and identifying developers.
- Helping to acquire land parcels for development.
- Updating *The Westobou Vision* through downtown business surveys, development research, and maps.

- Maintaining Springfield Village Park in tandem with the Springfield Village Foundation to include general liability, utilities, monthly maintenance, and repairs in the amount of \$15,000 annually.

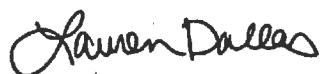

Augusta Tomorrow's Executive Director, the initiative's committee's co-chairs, and its Board of Directors will work diligently to ensure the success of the program in tandem with the Steering Committee and Neighborhood Task Force.

We look forward to working on this important project and are excited for the possibilities to improve upon the Laney Walker and Harrisburg neighborhoods. We fully anticipate this program and grant can serve as the example and guide for other communities that are facing similar challenges.

Sincerely,

Brian Rhodes  
President, Board of Directors  
Augusta Tomorrow, Inc.

Lauren Dallas  
Executive Director

[www.AugustaEDA.org](http://www.AugustaEDA.org)

September 3, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

I am writing to express my strong support for the Augusta Housing Authority's 2020 Choice Neighborhoods Initiative (CNI) Planning Grant for the Laney Walker Harrisburg Community. This Community has large concentrations of public housing and are amongst the poorest in the State of Georgia. As such, the Development Authority of Augusta, GA has a distinct interest in the citizens of this area and looking to find ways to encourage their participation in the workforce and to develop training programs for both adults and school-aged children to begin to improve their quality of life and marketable skills.

The City of Augusta and its nonprofit partners are making several improvements in the Harrisburg, Laney-Walker and Bethlehem Choice Neighborhoods Community and a CNI Planning Grant would leverage the existing investments. Our organization is in the final stages of an in-depth labor study of the community and will look to leverage this study to find actionable items to improve the area and give access to workforce programs to citizens specifically in this area. We have attached the "draft" full report and executive summary for your review.

The Development Authority of Augusta, GA is fully committed to explore our inclusive workforce needs as it relates to Advanced Manufacturing, Nuclear Sciences, HealthCare, Cyber Security, and other federal needs. We see a need for new programs, in-depth study, and implementation of programs to address our labor shortages. This is essential to the further improvement and growth of our communities.

The Development Authority of Augusta, GA is an innovative organization working to recruit new Retail and Commercial related businesses along with technology, cyber security, manufacturing, distribution, assembly and related industrial facilities to Augusta, Richmond County, Georgia.

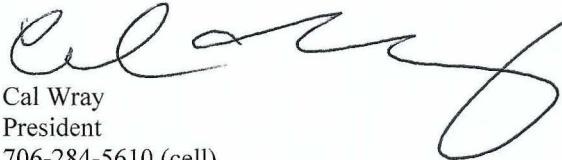

Our efforts strive to contribute to the success of the City of Augusta & Richmond County, make a positive impact on public/private ventures, serve your community by promoting new capital investment and job creation, and further new partnerships.

One of the biggest needs is to improve our workforce participation rate in our area which is especially lower in neighborhoods such as those targeted by this CNI Planning Grant. To this effort, we will firmly commit \$10,000 in funding for workforce participation planning that will target this neighborhood.

Further, we will commit staff hours, our full network, and other resources to make this effort a success, including playing a prominent role in the People/Employment Task Force during the anticipated Choice planning timeframe of 2021-2022.

Please count on our full commitment. I encourage you to give this application full and fair consideration within all applicable rules and regulations.

Sincerely,

Cal Wray  
President

September 8, 2020

Jacob Oglesby  
Executive Director  
Housing Authority of the City of Augusta  
1435 Walton Way  
Augusta, GA 30901

Dear Mr. Oglesby,

On behalf of Augusta Locally Grown, I fully support the Housing Authority of the City of Augusta's application for the FY2020 Choice Neighborhood Planning grant to develop a comprehensive plan for the transformation of the Laney Walker Harrisburg neighborhoods. Additionally, I am pleased to serve on the People subcommittee for the duration of the planning period.

Augusta Locally Grown (ALG) is a 501c3 nonprofit organization dedicated to growing the local food community throughout the Central Savannah River Area through farmers markets and educational programming. In 2012, we forged strategic long-term partnerships in the Harrisburg community. The Veggie Park Farmers Market (VPFM) was born from these efforts, and six years later runs several healthy food access programs, including SNAP doubling at the market and Georgia's first vegetable prescription program, Georgia Food for Health (GF4H). GF4H provides nutritional coaching, cooking classes, and household vegetable prescriptions for individuals with diet related diseases. Participants are able to redeem prescriptions at the VPFM. Since the GF4H inception, over \$300,000 income has been generated for local farmers, and an additional twenty jobs created in the community.

In 2020, ALG signed an agreement with the City of Augusta that allocates vacant land and properties for the use of farmers markets and community gardens. ALG will use it's proven farmers market model to daisy-chain markets throughout the Laney Walker area doubling SNAP and vegetable prescription access. The first of these markets has begun in the Laney Walker neighborhood with a firm commitment of \$10,000 per year of operating costs. There are two others in the planning stages for 2021-2022, each with an annual cost of \$10,000.

In 2021, ALG, in partnership with the MCG Foundation, the Community Foundation for the CSRA and multiple nonprofit partners in the Harrisburg neighborhood, will help plan and move into the Harrisburg Community Center which will enable us to operate the VPFM and GF4H programs on a double-effort scale. ALG has committed \$10,000 for creation of twenty ADA compliant raised garden beds and a greenhouse on the property grounds.

PO Box 31063  
Augusta GA 30901  
AugustaLocallyGrown.org

The Board of Augusta Locally Grown and I are excited to work with the Housing Authority, the City of Augusta, and all of its partners to revitalize and grow a healthier Laney Walker Harrisburg neighborhood.

Sincerely,

Rebecca van Loenen  
Executive Director  
Augusta Locally Grown, INC

Re: Supportive Services, Laney Walker-Harrisburg Choice Neighborhood Planning Grant Proposal

Dear Mr. Oglesby:

The Medical College of Georgia (MCG) is pleased to offer its full partnership and support to the Augusta Housing Authority (AHA) and City of Augusta's application for a HUD FY2020 Choice Neighborhoods (CN) Planning Grant to develop a comprehensive neighborhood transformation plan for the Laney Walker/Harrisburg community.

MCG is the only public medical school in Georgia and the 8<sup>th</sup> largest medical school in the United States. We are geographically situated adjacent to the Laney Walker/Harrisburg Community. Our Departments of Population Health Sciences, Family Medicine, and Internal Medicine, and our Institute of Public and Preventive Health, have extensively studied and recognize the array of social determinants of health including inadequate food and nutrition, lack of education, unemployment, and inadequate housing in our area. The convergence of interests locally and nationally has created an opportunity for HUD to use housing and community development policy to improve population health. Specifically, the Choice Neighborhood (CN) program appears to bring a neighborhood/community-based approach to redevelopment, which allows partners like yourselves to address health and educational disparities holistically.

Completed in 2019 and led by our Department of Population Health Sciences, MCG published in the *Journal of Hospital Management Health Policy* a paper titled "A logic framework for evaluating social determinants of health interventions in primary care." Our researchers determined, after evaluating a population of individuals distinctly similar to the residents of Laney Walker-Harrisburg, that several clear challenges greatly (and negatively) affected health outcomes: food insecurity, lack of education/income/employment, inadequate housing, and social support. Each of these challenges, we believe, are central to HUD's CN thesis and are set to be addressed by the AHA, City, and its planning partners.

We believe that primary care enhances health equity because its functions (first contact access, patient-focused care over time, comprehensiveness, and coordination of care) are especially beneficial to disadvantaged populations. Primary care also figures prominently in the patient-centered medical home, which aims to personalize, prioritize and integrate care to improve the health of whole people, families, communities and populations (our health system, Augusta University Health, is the area's only National Committee for Quality Assurance recognized Level 3 Patient Centered Medical Home).

To this end, the Medical College of Georgia and Augusta University Health wish to serve as a partner to the AHA and City's Choice Neighborhood transformation planning process and commit to serving as members of the Steering Committee and the People (Health) Task Force. We will allocate resources to include \$25,000 in funds and resources of in-kind contributions to include professional assistance, materials, equipment, and other human capital. Specifically, our Department of Population Health Chair agrees to partner with the AHA to assist it with the collection and analysis of health and other data and will commit a faculty member to assisting with these efforts. Our Department of Family Medicine Chair agrees to provide faculty or staff support for screening or other health services to the residents of Allen Homes in partnership with Harrisburg Family Health Services – throughout the planning process. These partners will also coordinate their efforts with Augusta Locally Grown to continue their "Food RX" program within the neighborhood.

Lastly, MCG will continue to commit residents and faculty to the student-run community outreach clinics located in the Laney Walker-Harrisburg neighborhood, as they have since 1989, and we will encourage our medical students – who will obtain community outreach credit – to participate in this effort.

We are grateful to be a partner in this effort and are excited to witness the great benefit the Choice Neighborhood planning and transformation process will have to our partners, patients, and friends in the Laney Walker-Harrisburg community.

Sincerely,

David C. Hess M.D.

Re: FY2020 Laney Walker-Harrisburg Choice Planning Grant Application

Dear Mr. Oglesby:

On behalf of the leadership, students, and faculty of Paine College, we would like to extend our full support of the Augusta Housing Authority (AHA) and City of Augusta's (City) application for a FY2020 Choice Neighborhoods planning grant, and to engage in the transformation planning process within and around the Laney Walker-Harrisburg community.

At Paine College, we emphasize academic excellence, ethical and spiritual values, and social responsibility, and commit to the personal development of our students to prepare them to be spiritually centered men and women for positions of leadership and service. Among our institutional objectives, we believe there are many that align with the goals of the *Choice Neighborhoods Initiative (CNI)*, and specifically within the Laney Walker-Harrisburg community:

- To maintain strong ties and interaction with the Augusta community regarding mutually beneficial educational and cultural goals.
- To educate students in the use of emerging technologies, problem-solving, and expanding the horizon of knowledge.
- To foster an understanding and appreciation of the Black heritage, its contribution to contemporary American culture, and its relationship with other people.
- To stimulate students to develop the spirit of inquiry and enhance their ability to think critically to be productive self-sufficient citizens.

As an institution that is both physically and relationally connected to this community, we would like to commit our resources to the planning process. Specifically, our students will volunteer to assist the AHA and the City with the

engagement of the residents of the Laney Walker-Harrisburg neighborhood during the planning process. We will also commit to be a partner to the residents of Allen Homes in determining both their needs and their desires for better housing, health, neighborhood, and education through direct interaction, data collection, and analysis. We are happy to commit a member of our leadership team to serve on the Steering Committee, as well as the Housing, People and Neighborhood task forces of the *CN* planning process. Our representative would bring to this effort the spirit and knowledge of Paine's resources and programs, and how they can be best leveraged to address the unique needs of the residents within this community.

We appreciate the opportunity to partner with you and look forward to seeing the resident-led revitalization of the Laney Walker-Harrisburg community. Best wishes with your application!

Sincerely,

Cheryl Evans Jones, Ph.D.  
President

**Attachment 24. Choice Neighborhoods Application Certifications**

THE AUGUSTA HOUSING AUTHORITY (AHA)

*Individual attachment file: Att24CNApplicationCert.pdf*

## CHOICE NEIGHBORHOODS APPLICATION CERTIFICATIONS – PLANNING GRANTS

The following are certifications to and agreements with the Department of Housing and Urban Development (HUD) required in connection with the Choice Neighborhoods Planning Grants application and implementation.

1. The public or assisted housing project targeted in this Choice Neighborhoods grant application meets the definition of severe distress in accordance with Section 24(j)(2) of the United States Housing Act of 1937 ("1937Act").
2. The Lead Applicant and Co-Applicant (if any) have not received assistance from the Federal government, State, or unit of local government, or any agency or instrumentality, for the specific activities for which funding is requested in the Choice Neighborhoods application.
3. The Lead Applicant and Co-Applicant (if any) do not have any litigation pending which would preclude timely startup of activities.
4. The Lead Applicant and Co-Applicant (if any) are in full compliance with any desegregation or other court order related to Fair Housing (e.g., Title VI of the Civil Rights Act of 1964, the Fair Housing Act, and Section 504 of the Rehabilitation Act of 1973) that affects the Lead Applicant's and Co-Applicant's (if any) public or assisted housing program and that is in effect on the date of application submission.
5. The Lead Applicant and Co-Applicant (if any) have returned any excess advances received during development or modernization, or amounts determined by HUD to constitute excess financing based on a HUD-approved Actual Development Cost Certificate (ADCC) or Actual Modernization Cost Certificate (AMCC), or other HUD contracts, or that HUD has approved a pay-back plan.
6. There are no environmental factors, such as sewer moratoriums, precluding development in the requested locality.
7. In accordance with the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001-4128), the property targeted for acquisition or construction (including rehabilitation) is not located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, unless:
  - (a) The community in which the area is situated is participating in the National Flood Insurance program (see 44 CFR parts 59 through 79), or less than one year has passed since FEMA notification regarding such hazards; and
  - (b) Where the community is participating in the National Flood Insurance Program, flood insurance is obtained as a condition of execution of a Grant Agreement and approval of any subsequent demolition or disposition application.
8. The application does not target properties in the Coastal Barrier Resources System, in accordance with the Coastal Barrier Resources Act (16 U.S.C. 3501).

**If selected for Choice Neighborhoods funding:**

9. The Lead Applicant and Co-Applicant (if any) will ensure compliance with all policies, procedures, and requirements, including the Program Requirements provided in the NOFA, prescribed by HUD for the Choice Neighborhoods Program.

10. The Lead Applicant and Co-Applicant (of any), will ensure that Choice Neighborhoods grant activities are implemented in a timely, efficient, and economical manner. The Lead Applicant and Co-Applicant (of any), will ensure that all Choice Neighborhoods grant funds are expended by the statutory deadline in accordance with 31 U.S.C. § 1552. Any funds that are not expended by that date will be cancelled and recaptured by the Treasury, and thereafter will not be available for obligation or expenditure for any purpose.

11. The Lead Applicant and Co-Applicant (if any) will ensure assistance from the Federal government, State, or unit of local government, or any agency or instrumentality is not received for the specific activities funded by the Choice Neighborhoods grant. The Lead Applicant and Co-Applicant (if any) has established controls to ensure that any activity funded by the Choice Neighborhoods grant is not also funded by any other HUD program, thereby preventing duplicate funding of any activity.

12. The Lead Applicant and Co-Applicant (if any) will ensure that more assistance is not provided to any housing site or neighborhood under the Choice Neighborhoods grant than is necessary to provide for the planning of affordable housing and neighborhood transformation after taking into account other governmental assistance provided.

13. The Lead Applicant and Co-Applicant (if any) will ensure that the aggregate amount of the Choice Neighborhoods grant is supplemented with funds from sources other than Choice Neighborhoods in an amount not less than 5 percent of the amount of the Choice Neighborhoods grant in accordance with section 24(c)(1)(A) of the 1937 Act (42 U.S.C. 1437v(c)(1)(A)) and as incorporated in the NOFA.

14. The Lead Applicant and Co-Applicant (if any) will ensure compliance with:

- (a) The Fair Housing Act (42 U.S.C. 3601-19) and regulations at 24 CFR part 100;
- (b) The prohibitions against discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and regulations at 24 CFR part 8;
- (c) Title II of the Americans with Disabilities Act (42 U.S.C 12101 et seq.) and its implementing regulations at 28 CFR part 36;
- (d) The Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151) and regulations at 24 CFR part 40).

15. The Lead Applicant and Co-Applicant (if any) will ensure compliance with all Choice Neighborhoods requirements for reporting, providing access to records, and evaluation.
